# What is Soft Play?

Soft play refers to a specifically-designed play area where almost all surfaces and equipment are covered in thick padding. This gives children a soft environment where they are safe to act in ways they otherwise might not be able to.

## What are the benefits of Soft Play?

Soft play areas provide a safe and fun environment for young children to interact and develop essential life skills. An indoor soft play area can be personalised to your child's needs, with the reassurance that they won't come to any potential injuries due to the soft nature of the sensory equipment.

# Here are the 10 benefits of Soft Play:

1. Cognitive development and growth
2. Social skills
3. Security
4. Problem solving and adaptability
5. Creativity
6. Communication skills
7. Relaxing
8. Exercise and sleep
9. Motor skills
10. Me Time

## Hooray for Soft Play

### **Climbing Corner - Calming Furniture for Sensory Zones**

**\$1,490.00**

The variety of bright shapes offer developmental challenges as well as endless fun. The units can be fastened together to create a corner structure, used individually, or set up in your own unique configuration.

## Hooray for Soft Play

### **Foam Roundabout - Sensory Furniture**

**\$659.00**

The Foam Roundabout is a colourful, 4-piece foam structure for sitting or standing on. The pieces can form a circle to walk around or a curvy balance beam to cross, making it perfect for balance and perceptual development.

## Hooray for Soft Play

### **Sensory Tactile Roller Coaster**

**\$465.00**

The Sensory Tactile Rollercoaster challenges balance and coordination as kids climb up and down unique, wavy, foam shapes. The differing shapes and heights are excellent for developing perceptual skills.

## Hooray for Soft Play

### **Calming Spaces Foam Arch - for Sensory Spaces**

**\$415.00**

Kids with sensory overload can use this product to crawl through, climb over or rock back and forth on the Calming Spaces Foam Arch. Great for developing motor skills such as balance and coordination, and as a calming product with sensory overload..

## Hooray for Soft Play

### **Hex Trampoline by Hart**

**\$280.00**

Add some bounce and fun to your movement programme with the HART Hex Trampoline. 36 bungee cords offer more elasticity and provide a deep and gentle bounce, ideal for reducing the impact on joints while performing exercises.

## Hooray for Soft Play

### **Sensory Squeezeie Seat - Horse Chair Cushion**

**\$325.00**

GREAT FOR VESTIBULAR REGULATION The Sensory Squeezeie Seat - Horse Chair Cushion is great for Autism and sensory processing disorders. The Sensory Squeezeie Seat - Horse Chair Cushion allows your child to gently squeeze when they are seated allowing for subtle movements without calling attention to wiggling.

## Hooray for Soft Play

### **Connecta Balance Path**

**\$159.00**

Kids can explore the bridges and stepping stones as you create new pathways with the Connecta Balance Path. Great for learning how to balance and adding a colourful challenge to obstacle courses. It includes six beams and six circular pads that connect at multiple points to create any range of configurations.

## Hooray for Soft Play

### **Calming Mini Tunnel Sensory Furniture**

**\$129.00**

The Calming Mini Tunnel can be used in a sensory space, in classrooms, or at home and can be used along with our other Soft Sensory Furniture. Crawl through, hide in, sit in or rock and roll away in the Calming Mini Tunnel.

## Hooray for Soft Play

### **Foot Pods**

**\$9.50**

The Tactile Sensory Foot Pods are dome shaped pods that can be used to improve dynamic balance, body awareness and co-ordination. Place the Tactile Sensory Foot Pods flat side down or up for varied levels of difficulty.
