Ratio Holmes

Case of the False Fire Alarms

Baking Soda and Vinegar Reaction

Sure, you can do the classic volcano baking soda and vinegar experiment, but this one is so much cooler! Literally.

What you need:
balloon
white vinegar
baking soda

Directions:
Freeze the vinegar. Using a funnel, place some baking soda in the balloon. Break the frozen vinegar into small pieces and put some into the balloon, too. Tie off the balloon, place it in a safe area outside, and watch what happens.

Questions:
Is the reaction what you expected?
How can you alter the results of the experiment?
