

BROCCOFUSION + BROCCOSPA

livlong.ca | 1-844-246-5997

WHAT IS IT?

BroccoFusion and BroccoSpa are a collection of ointments, cremes, and lotions containing broccoli seed oil and sulforaphane. Sulforaphane provides deep hydration and can help improve the appearance of acne, dark spots, aging skin, sun damage, and more.

WHAT IS SULFORAPHANE?

Sulforaphane is a naturally occurring compound found in cruciferous vegetables such as broccoli, cauliflower, kale, and cabbage. Sulforaphane has been studied extensively and has a wide range of health benefits, including powerful antioxidant effects, cancer prevention, anti-inflammatory properties, and skin healing effects.

BROCCOFUSION SULFORAPHANE OINTMENT + LOTION

When our skin is healthy, light reflects off the color below the surface, enabling it to glow. When our skin is dry, the surface becomes uneven and rough. BroccoFusion provides deep moisture to improve the appearance of signs of aging, age spots, acne, sun damage, dark spots, and uneven skin texture. It is made with broccoli oil and sulforaphane for deep moisture and skin healing benefits.

BROCCOSPA ADVANCED ANTI-AGING FACIAL TREATMENT CREME

BroccoSpa is created with sulforaphane and shiitake mushroom extracts to provide the skin with deep moisture and anti-aging nutrients. This creme is rich in exotic oils like coconut, argan, broccoli seed, and sea buckthorn. It helps reverse the visible signs of aging, minimizes dark circles, improves the tone and texture of skin, and protects against sun exposure. It is made with natural seed oils, sulforaphane, and shiitake mushroom extract.

CONDITIONS / INDICATIONS:

- Acne
- Sun damage
- Dark spots and age spots
- Dry skin
- Aging skin
- Textured or uneven skin
