

BROCCOGEN 10

livlong.ca | 1-844-246-5997

WHAT IS IT?

BroccoGen 10 is a supplement containing Sulforaphane Glucosinolate, a naturally occurring compound found in cruciferous vegetables such as broccoli, cauliflower, kale, and cabbage. Sulforaphane Glucosinolate has been studied extensively and has a wide range of health benefits, including powerful antioxidant effects, cancer prevention, anti-inflammatory properties, and neurological protection. BroccoGen 10 contains proprietary and stabilized Sulforaphane Glucosinolate for optimal quality.

WHAT DOES IT DO?

Sulforaphane Glucosinolate has many health benefits in the body. Studies have shown Sulforaphane Glucosinolate to provide cancer prevention through detoxification and antioxidant effects. It also minimizes inflammatory responses and offers neurological protection. Sulforaphane Glucosinolate also offers support for those with diabetes by reducing glycemic-related complications. Sulforaphane Glucosinolate can also reduce cardiovascular diseases through antioxidant and anti-inflammatory properties.

CONDITIONS / INDICATIONS:

- Inflammatory diseases
- Cancer prevention
- Neurological conditions
- Antioxidant support
- Diabetes
- Cardiovascular conditions

CANCER PREVENTION

LEARN MORE

- Carcinogen detoxification effect
- Blocks cancer cell cycle progression
- Provides antioxidant support

INFLAMMATION [LEARN MORE](#)

- Minimizes inflammatory responses
- Protects muscles from oxidative damage and inflammation
- Prevents inflammation and expression of inflammatory genes

NEUROLOGICAL DISORDERS

LEARN MORE

- Neuroprotective effects against brain diseases
- Offers protection against central nervous system diseases due to antioxidative and detoxifying benefits
- Can prevent strokes through anti-oxidative mechanisms
