THE SMARTEST SOLUTION IN MOLD RESISTANT COATINGS.

The best just got better. New and improved IAQ 6000 is a white/tintable mold resistant coating containing a sustainable fungistatic agent to resist mold growth on the dry coating surface. IAQ 6000 is preferred by restoration professionals and has received the highest scores possible in both ASTM G-21 and ASTM D-3273 mold resistance testing by independent laboratories.

SUPERIOR MOLD INHIBITION
ON THE DRY COATING SURFACE

EXCEPTIONAL HIDE
WITH ONE COAT COVERAGE

SUSTAINABLE ACTIVE INGREDIENT

ULTRA LOW VOC*

* 1.7 g/L (calculated as per EPA) / 6 g/L (calculated as per SCAQMD)

NEW 8360-5 IAQ 6000 5 GALLON

- Yields better results with 1 coat than competing products achieve with 2 coats
- A South Coast Air Quality Management District (SQAQMD) Super-Compliant coating
- Use on wood, plaster, wallboard, sheetrock, concrete, masonry, and primed meta
- Ideal for AIA/CSI 02 87 13 or 02 85 00 Mold Remediation
- Proprietary and sustainable new zinc complex active ingredient
- Exceeds requirements of IICRC S520 for fire testing, permeability, VOCs, and resistance against mold regrowth

FBC™ System Compatible indicates that this product has been tested, and is monitored on an ongoing basis, to assure its chemical compatibility with FlowGuard Gold®, BlazeMaster® and Corzan® piping systems and products made with TempRite® Technology. "FBC™, FlowGuard Gold®, BlazeMaster®, Corzan®, and TempRite® are trademarks of The Lubrizol Corporation or its affiliates.

SAVE MONEY!

Twice The Coverage = Half the Labor.

IAQ 6000 contains a more effective mold resisting active ingredient and more solids per volume than competing products. **One coat** of IAQ 6000 hides much better and is more effective against mold than two coats of competing products.

COST/COVERAGE COMPARISON		FIBERLOCK IAQ 6000	COMPETITOR
1st Coat	LABOR	\$0.50 / Sq.ft.	\$0.50 / Sq.ft.
	COATING	\$0.26 / Sq.ft.	\$0.17 / Sq.ft.
		\$0.76 / Sq.ft.	\$0.67 / Sq.ft.
2nd Coat	LABOR		\$0.50 / Sq.ft.
	COATING		\$0.17 / Sq.ft.
			\$0.67 / Sq.ft.
TOTAL		\$0.76 / Sq.ft.	\$1.34 / Sq.ft.

IAQ SAVINGS: 43% / Sq.ft.

Labor is the most expensive part of restoration projects. IAQ 6000 achieves superior performance in a single coat saving in excess of 23% in material cost per square foot, with a 50% reduction in labor.

60% Labor is the largest expense when it comes to commercial restoration projects

30% Building Materials (wood, plaster, wallboard, sheetrock, etc.) make up another large portion

10% Coatings are actually a small portion of commercial restoration project expenses.

IAQ 6000 may cost more up front, but it can help avoid costly call backs. The use of lower quality coatings that fail to prevent bacterial re-growth can lead to a complete tear out/reconstruction incurring massive labor and material expenses.
