

A person in a light-colored sweater is pouring beer from a tap into a glass. The glass has a logo with the letters 'C', 'W', and 'J'. The tap is part of a smart vending machine with a touchscreen display and a payment terminal. The background is a blurred bar or cafe setting.

Commonwealth Joe

Smart Vending Technology

Making craft beverages on-tap more accessible where people work, live, and play.

KegVending.com

Kegeerator Vending Machine

The easiest vending decision you'll ever make.

Commonwealth Joe is the only on-tap vending-enabled beverage provider on the East Coast. With vending technology, your site can offer Nitro Cold Brew and other premium beverages on-tap at little or no cost to you by transferring the cost to your tenants.

How It Works

- 1 Tap** the screen.
- 2 Swipe** your credit card.
- 3 Pour** as much as you'd like.

Kegeerator Vending Machine Features & Details

Features

Our KVMs provide real-time data every half-a-second on:

- Historical sales.
- Refrigeration temperature.
- Keg levels.
- Pressure sensor information for N₂ and Co₂.
- Service log information.

Our KVMs allow for:

- Predictive ordering.
- Auto ticket generation.
- Product SKU image update.
- Happy hour pricing.

Details

- KVM-R: 58.5" x 23.5" x 23" (HxWxD).
- KVM-C: 58.5" x 23.5" x 38" (HxWxD).
- Electrical: 115V/60 Hz, 2.5 Amps. Works with standard outlets.
- Quiet unit operation. Includes easy-roll caster for mobility.

Two Service Options

Free Flow Service

Our free flow service is typically used by offices looking to sponsor craft beverages on-tap for their employees as an additional perk.

Delivery schedule based on consumption.

Keg cost is standard with each order.

Vending Service

Our vending service is suited for facilities where amenities, like craft beverages on-tap, are valued by consumers but not fully funded by the facility. Automatic deliveries keep inventory fully stocked and consumers pay by the ounce for the beverages they pour.

Both Service Options

- ✓ Secure & convenient payment methods.
- ✓ Dedicated Customer Experience team.
- ✓ Free nitrogen, delivery & maintenance.
- ✓ Beverage temperature & shelf life monitoring.
- ✓ Proprietary, patent-pending technology.

You're In Great Company

These great companies are already enjoying our Nitro Cold Brew on tap!

BONOBOS

UBER

"Our guests are thrilled to have Commonwealth Joe's Nitro Cold Brew on tap. The vending machine makes it easier for our team to manage and maintain and our guests love being able to grab a coffee after their work out and skip the lines at the coffee shop. The Commonwealth Joe team has been very easy to work with and all delivery has been a breeze!"

Consumer Palates Are Changing

Soda consumption is at a **31 year low**.

Annual cold brew sales **increased 137%** from '16 to '17.

Kombucha retail sales grew **37.4%** in 2017 to **\$556 million**.

Coffee Is A Necessity

The average American spends **62 hours and \$1,100 per year** getting coffee.

A survey conducted by Commonwealth Joe found that **91% of people drink coffee daily**.

The Easiest Way To Fill Your Beverage Needs.

Consumer palates are moving away from soda and towards healthier beverages like Nitro Cold Brew and Kombucha.

Give those in your facilities the craft beverages they crave at below-retail price. A Kegerator Vending Machine (KVM) from Commonwealth Joe is the perfect self-service solution for your facility. Our KVM easily integrates into your current food and beverage program and requires no additional effort or support from your team.
