

A close-up photograph of a smart vending machine dispensing beer. A person's hand is visible at the top, holding a beer tap handle labeled "BEATLES" and "ITRO". The tap is pouring a dark beer into a clear glass mug held by another hand. The mug features a logo with the letters "C", "W", and "J" and a stylized wave. To the right, the vending machine's interface is visible, including a touchscreen displaying a product image and price, and a payment panel with logos for Visa, Mastercard, American Express, and a contactless payment symbol. The background is a blurred indoor setting, likely a bar or cafe.

# Commonwealth Joe

Smart Vending Technology

## Consumer Palates Are Changing

Soda consumption  
is at a **31 year low**.

Kombucha retail sales  
grew **37.4%** in 2017 to  
**\$556 million**.

Annual cold brew sales  
**increased 137%** from '16  
to '17.

## Coffee Is A Necessity

The average American  
spends **62 hours**  
**and \$1,100 per**  
**year** getting coffee.

A survey conducted by  
Commonwealth Joe  
found that **91% of**  
**people drink coffee**  
**daily**.

## The Easiest Way To Fill Your Beverage Needs.

Consumer palates are moving away from soda and towards healthier beverages like Nitro Cold Brew and Kombucha.

Give those in your facilities the craft beverages they crave at below-retail price. A Kegerator Vending Machine (KVM) from Commonwealth Joe is the perfect self-service solution for your facility. Our KVM easily integrates into your current food and beverage program and requires no additional effort or support from your team.

## What Is Nitro Cold Brew Coffee?

A new era of coffee.

Our cold brew coffee is steeped and chilled for more than twelve hours using freshly-roasted coffee beans. The cold brew is then infused with nitrogen as it comes out of the tap, resulting in a naturally sweet and creamy beverage.

Our specialty-grade Shenandoah Springs Honduras roast is used for our Nitro Cold Brew. It is classic and balanced, with hints of creamy caramel.

## Kegeator Vending Machine Features

**Our KVMs provide real-time data every half-a-second on:**

- Historical sales.
- Refrigeration temperature.
- Keg levels.
- Pressure sensor information for N2 and Co2.
- Service log information.

**Our KVMs allow for:**

- Predictive ordering.
- Auto ticket generation.
- Product SKU image update.
- Happy hour pricing.

## Details

- KVM-R: 33" x 23.68" x 23.93" (HxWxD).
- KVM-C: 32" x 22.88" x 27.38" (HxWxD).
- Electrical: 115V/60 Hz, 2.5 Amps. Works with standard outlets.
- Quiet unit operation. Includes easy-roll caster for mobility.

## Two Service Options

### Free Flow Service

Our free flow service is typically used by offices looking to sponsor craft beverages on tap for their employees as an additional perk.

Delivery schedule based on consumption.

Keg cost is standard with each order.

### Vending Service

Our vending service is more suited for facilities where amenities, like craft beverages on tap, are valued by consumers but not funded by the facility.

Automatic deliveries keep inventory fully stocked as consumers pay by the ounce for the beverages they pour.

### Free Flow Service

- ✓ Secure & convenient payment methods.
- ✓ Dedicated Customer Experience team.
- ✓ Free nitrogen, delivery & maintenance.
- ✓ Beverage temperature & shelf life monitoring.
- ✓ Proprietary, patent-pending technology.

## You're In Great Company

These great companies are already enjoying our Nitro Cold Brew on tap!

**BONOBOS**

**UBER**

"Our guests are thrilled to have Commonwealth Joe's Nitro Cold Brew on tap. The vending machine makes it easier for our team to manage and maintain and our guests love being able to grab a coffee after their work out and skip the lines at the coffee shop. The Commonwealth Joe team has been very easy to work with and all delivery has been a breeze!"
