PRESS RELEASE

Levo Launches First-of-its-Kind POWERED LUGGAGE WORK STATION

Recharges your tablet or e-reader while you work.

The Levo Powered Luggage Tray securely snaps on suitcase handles to hold your tablet or e-reader for comfortable productivity and turns a suitcase into a portable, recharging desk or entertainment center.

Item # 33122
Size: 11 x 5.5 x 1.3 inches
Battery Capacity: 6600 mAh
USB Output: 1.0A and 2.0A
Custom Colors Available

LAKELAND FLORIDA, JANUARY 6, 2015:

LEVO rolled out the first, powered luggage tablet tray in the industry that turns suitcases into a convenient workstation or entertainment center.

The G2 Luggage Tray quickly snaps into place on the luggage handle and holds not only tablets but anything up to 3 lbs.- books, snacks, or paperwork.

Users report that the onboard charging station is the most important feature to them. Instead of endlessly searching for airport charging stations they power up directly from the tray.

Everything easily unsnaps and stores in a purse, briefcase or carry-on. The G2 Luggage Tray turns waiting for a plane or train into productive time –whether you're working or just surfing.

This new gadget is ideal for travellers, business people or entertaining kids on long trips. It makes waiting and travel delays a little more tolerable.

The G2 Powered Luggage Tray is available worldwide by ordering online at LEVOstore.com and ship within days.

LEVO is a global leader in tablet and e-reader stands and is trusted around the world.
