Connect your Shopify store to usastrong.IO Marketplace

What benefits do I have from connecting my Shopify store to usastrong.IO storefront?

If you choose to connect your Shopify store to usastrong.IO marketplace:

➢ You will be able to import the products from your store
➢ The inventory on usastrong.IO and your Shopify will be synced
➢ Orders for connected products will be created in your Shopify store automatically
   o All orders created by usastrong.IO will have the following customer email structure:
     {orderid}+email+marketplace@usastrong.io
   o You will see customer information in order's Shipping details
➢ You can continue fulfilling the order from your Shopify admin, usastrong.IO will pick up the tracking ID automatically

How to connect my Shopify?

1. Create a custom app in Shopify Admin

You need to create a custom app that usastrong.IO Marketplace can use to communicate to your store.

- To create a custom app, go to your **Shopify Admin** and then click **Apps**. Click **Develop Apps** in top-right corner.

- Click **Create an app** in the upper-right corner.

- Name your app and click **Create app**. We don't have any required naming conventions, choose a name that will tell you in the future what the app is used for.
- Click **Configure Admin API Scopes.**

- Provide the following permissions:
    - Assigned fulfillment orders (Read and write)
    - # read_orders, write_orders

    - Fulfillment services (Read and write)
    - # read_fulfillments, write_fulfillments

- o Inventory (Read and write)
- o # read_inventory, write_inventory

- o Locations (Read Access)
- o # read_locations

- o Order Editing (Read and write)
- o # read_orders, write_orders

- o Orders (Read and write)
- o # read_orders, write_orders

- o Products (Read and write)
- o # read_products, write_products
- In **Webhook Subscriptions** section, select 2022-01 (Latest).
- Click **Save** in the bottom-right corner.
- Click **Install app** and then click **Install** again.

- You will now see the **Access Token**, **API Key** and **API Secret Key.** You can only reveal the access token once, so make sure to copy it to a safe place, you will need all three parameters to establish the connection.

2. Connect the custom app to your usastrong.IO Marketplace storefront

- Log into your usastrong.IO Marketplace Admin Panel.
- Hover over **CONFIGURATION** and click **SELLER SYNC APP CONFIGURATION**
- Enter your store and app information accordingly and then click **Save.**
