A new professional-quality collection of handmade wineglasses and accessories (such as carafes) from New York-based glass company Glasvin looks beautiful and comes without a premium price tag. The collection offers a variety of elegant styles that are designed to actually enhance the aroma and taste of fine wine, and also stand up to daily use and even dishwashers.

## FUN & FAIR

Canadian textile designer Kate Austin's vibrant and colourful designs for home decor and clothing are more than merely fun and appealing. Kate fosters fair-trade partnerships and works with artisans who use earth-friendly dyes and recycled water systems - all of which reflects her philosophy of social responsibility and eco-consciousness at every stage of design and manufacturing. Some items, like the Furoshiki Wrap, serve two functions: as a pretty bandanna and as sustainable, reusable gift wrap.

Furoshiki Wrap, from \$30, table and picnic ware, from \$18, [kateaustindesigns.ca](#).
