

To (company name):

.....

Plastic is a huge problem for our planet. When I visited your company recently, I thought of a great way that your company could reduce your plastic use.

My idea for your company is:

.....
.....
.....
.....

The good thing is every little bit we all do to reduce our plastic use, adds up and the impact you will have as a store owner will be even huger!

Why should we care about plastic pollution:

- Every minute a truckload of plastic pollution enters our ocean
- By 2050 there will be more plastic than fish
- Plastic leaches chemicals into the environment which eventually end up on our plates.

Please consider using reusable products that are environmentally friendly, and will support a better future for generations to come.

Yours sincerely,

Name:

.....
