

Transition to the 3G Adhesive Family

Simpson Strong-Tie will be obsoleting our ET-HP® and SET-XP® offering in 2023 and AT-XP® in early 2024. The below tables and information will help with transitioning from these products to their closest direct replacements.

ET-3G™, which launched in September 2023, is code listed for cracked and uncracked concrete, and post-installed reinforcing-bar connections (ESR-5334), cracked and uncracked masonry (ESR-5309) and unreinforced brick masonry (ER-870) applications. With increased bond strength and extended working time at elevated temperatures, ET-3G is ideal for general doweling or threaded rod and rebar anchoring. ET-3G is available in single-coaxial and side-by-side cartridges that fit the current Simpson Strong-Tie® dispensing tools and accessories.
