Ingenico ISC250 Protective Cover Installation Instructions

CONGRATULATIONS!

You have made a great choice to protect your device from germs, spills and grime while extending the life of your Terminal/PIN Pad!

Instructions:

1. Clean the keypad area so that it is free of dust and grime.
2. Turn the TOP LEFT corner and the FRONT LEFT corner of the cover inside out.
3. Flip the TOP and LEFT sides so they stick straight up.
4. Remove the white Mylar adhesive strips of the cover from the TOP, LEFT SIDE, and RIGHT SIDE. Don't remove the front two strips yet.
5. THE DOUBLE SIDED TAPE WILL SOMETIMES STICK TO THE WHITE MYLAR. DON'T FRET. SIMPLY PLACE IT BACK ON THE COVER AND PEEL THE MYLAR OFF.
6. Place the cover over the keypad number buttons first. Fold down the FRONT LEFT corner first. And moving down the left side adhere the cover. Fold down the TOP LEFT corner, and adhere the TOP and RIGHT sides.
7. Once in position, flip up the front and remove the tape and adhere. Next do the same for the FRONT RIGHT.
8. Check and smooth down any bubbles. You can safely lift up the edges to stretch and reapply the cover.
9. Final Step: Smooth down all edges of the cover.

Tips for Care and Use

- This cover is durable but it is made of plastic, so treat it gently.
- Do not use sharp objects or pens as they may puncture the cover.
- Clean with a damp cloth or antibacterial wipe.
- Do not remove the cover to clean it.
