Mx915 / Mx925 Screen Protector Cover Installation Instructions

CONGRATULATIONS!

You have made a great choice to protect your device from germs, spills and grime while extending the life of your Terminal!

Instructions:

1. Clean the screen area so that it is free of dust and grime.
2. Remove the white Mylar adhesive strips of the cover on all sides, taking care not to remove the sticky adhesive tape from the cover. THE DOUBLE SIDED TAPE WILL SOMETIMES STICK TO THE WHITE MYLAR. DON'T FRET. SIMPLY PLACE IT BACK ON THE COVER AND PEEL THE MYLAR OFF.
3. Turn the TOP LEFT corner inside out so that it flips straight up. Place this TOP LEFT corner on to the screen first. Flip it down when you have it in place. Working from the corner position the rest of the cover in place.
4. Place over the screen. Smooth down all sides and into the corners.
4. Check and smooth down any bubbles. You can safely lift up the edge to stretch and reapply the cover.

And now your screen is protected!

Tips for Care and Use

1. **This cover is durable but it is made of plastic, so treat it gently.**
2. **Do not use sharp objects or pens as they may puncture the cover.**
3. **Clean with a damp cloth or antibacterial wipe.**
4. **Do not remove the cover to clean it.**
