

# DRIVE-THRU HANDLE

The Tailwind Drive-Thru Handle from ENS is a unique payment mounting solution for card payment machines at Drive-Thru windows. The Drive-Thru Handle allows the customer to reach the payment device easily and allows for a safer transaction. The Drive-Thru handle is also available with an optional wall mount and tether anchor point.

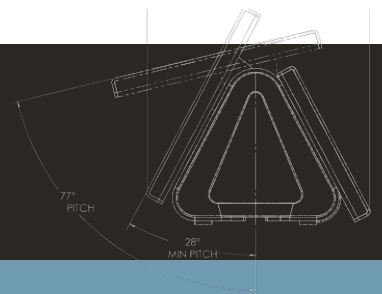

- ✓ Protects from interference
- ✓ Future proof – if you change your PIN Pad, you only need a new back plate
- ✓ Compatible with the Verifone P200/P400, PAX S300, Ingenico iPP320/350
- ✓ Select the best Tailwind backplate to attach your payment solution to the stand
