SUB-STRUCTURE MATERIALS

Galvanised Lip Channel is a popular choice among builders and contractors for its durability and strength. Made from high-quality steel and coated with zinc, our Galvanised Lip Channel provides excellent resistance against corrosion, making it ideal for use in harsh environments.

Our CCA Treated Timber is treated with copper, chromium, and arsenic to protect against fungal decay and insect infestation. This makes it perfect for use in outdoor structures such as decks, fences, and pergolas.

PRODUCT	SIZE	DESCRIPTION	PRICE
*VAT Included			
	50mm x 25mm x 10mm	Galvanised Lip Channel 5.8m	R 425.00
	45KG	Premix Concrete Mix	R 45.00
