Connect to Xbox One:

Follow the instructions to connect the converter to the Xbox One console. The LED on the PS2 controller will turn on upon connection.

Turbo:

When the turbo function is used the converter's LED will flash.

Center Button functions:

The Center Button emulates the Xbox button of the Xbox One controller:

- * Press once = Xbox button short press
- * Press twice = Xbox button long press
- * Press to wake up the Xbox One if it is in standby mode

Hot swap:

Change controllers without shutting down.

How to assign Turbo function buttons:

Simultaneously press START and the buttons you want to use for Turbo. (Ex: Δ, O, □, X, L1, R1, L2, R2, L3, R3)

How to clear Turbo function buttons:

Simultaneously press START and the buttons that currently trigger the Turbo function. (Ex: Δ, O, □, X, L1, R1, L2, R2, L3, R3)
