mpress nano

Powered by Phreakmods Cerberus, with native support for PS3, Xbox, Switch, and PC. With RP2040 and Brook Fusion upgrades on the way.

Cherry MX Ultra Low profile switches for the ultimate button experience. With only 0.8mm actuation and a feel like no other, your game goes to the next level.

Custom machined aluminum top and aluminum pcb base create the perfect for a clean finish and solid feel.

Straight forward assembly and parts for easy future upgrades/mods.

Did we say thin? At 6mm tall, we are thinner than most phones. This amazing size with an almost solid metal build creates a truly unbelievable product.
