

Smartest Pumpkin IN THE Patch

LESSON: PUMPKIN LIFE CYCLE

Directions:

Color and cut the lifecycle circle. Cut out arrow. Layer plate, circle and arrow and connect with a brad to make a spinner.

Smartest Pumpkin IN THE Patch

LESSON: PUMPKIN LIFE CYCLE

Just Roll With It!

NAME: _____

DATE: _____

Roll your die and color the number that matches yours.
Just roll with it as you grow your pumpkin from start to finish

1

The seed and soil start the process.

2

The sprout grows first.

3

With help from water and sunlight, the vine and leaves begin to grow.

4

Soon a yellow blossom appears on the plan. Bees will help this pollinate to become a pumpkin.

5

A green pumpkin appears and starts to grow.

6

After it has had time to grow, the pumpkin is ready to be picked!
