

# KICHI

## Science meets nature

KICHI is a beauty brand and clinical skin studio in London that specialises in high-tech combination facials, with zero downtime. The KICHI product range fuses active minerals, antioxidants and cold-pressed seeds to promote youthful looking skin that starts from within.

### KICHI BABY FACE

Transform your skin with our most famous resurfacing facial, coined the "Cult Facial" by Harper's Bazaar. It actively increases cellular renewal to combat ageing, targeting sun damage, pink acne scarring, pigmentation, and more.

Reduce the appearance of wrinkles, tighten pores, and even out your complexion for skin that looks fresher and more youthful in just one session, with the added benefit of the Baby Face Glow lasting for up to 8 weeks.

Rest assured that there is 100% no-risk and safe for all skin types and tones.

TECHNOLOGY: LED, baby laser, cryo globes

1hr / £350

### KICHI SCULPT & GLAZE

Achieve a hydrated sculpted, plumper face, and glossy glazed glowing skin. A super age-defying facial uses our unique Korean radiofrequency technology together with our nano glow pen, to create tiny microchannels in the skin, which are then infused with a cocktail of pure minerals, vitamins, and medical grade targeted serums and KICHI products (such as our best-selling Forever Oil).

Using our unique Radiofrequency technology, KICHI SCULPT & GLAZE harnesses the power of three currents simultaneously – Tecar, tripolar and monopolar – which lift and tone the facial muscles, drain the lymphatic system, and stimulate fibroblasts to produce collagen and elastin for up to 3 months.

TECHNOLOGY: Deep radiofrequency, KICHI magic hands, nano glow pen, cryo globes: vibration therapy & LED

### KICHI FLAWLESS

The Flawless Facial is a relaxing but effective, unique, and advanced treatment focusing on age management. Sienna Miller's and Olivia Wilde's go-to facial, with Global A-list Facialist and "46-year-old" KICHI Founder Natasha Clancy. This 90-minute treatment is a two-in-one facial, with four technologies, working on every layer of the skin for full effects. Skilfully combining the rejuvenating results of our "cult" Baby Face resurfacing facial with the skin-tightening radiofrequency sculpt facial.

TECHNOLOGY: Deep radiofrequency, KICHI magic hands, baby laser, cryo globes: vibration therapy & LED

### GENIUS LIFT

#### *NO SURGICAL LIFT & SKIN TIGHTENING: FACE & BODY*

Using the world's most advanced radiofrequency microneedling device, the Genius Lift works to tighten and lift the skin on the face and neck or body to visibly combat signs of ageing. Collagen-stimulating results start to show 4 weeks post-treatment and continue to populate up to 6 months, with multiple sessions having an accumulative effect.

The Genius Lift is an innovative medical treatment that harnesses Lutronic's revolutionary radiofrequency microneedling technology to resolve a variety of skin concerns, ranging from scaring wrinkles, sagging and volume loss.

Designed specifically to tighten, lift and plump the face and neck, through natural collagen production, it achieves excellent results that can even delay or completely prevent the desire for a face lift in later life.

BODY: Body tightening, loose skin for the stomach, bingo wings, back or front of legs.
