Ambidextrous**

Polypropylene

This compatibility list has been compiled in good faith by Manthorpe Building Products Ltd. The tiles indicated are known to work with the SmartVerge® Dry Verge System, Linear Dry Verge System, Polypropylene Handed and Ambidextrous Dry Verge Systems when laid in accordance with manufacturers instructions. However, due to the vast number of roof tiles available on the market we are unable to provide a complete list for all makes and types of tiles available, as such there may be tiles available that do work with one or more of the systems that we have not yet been able to test. If you are unsure whether one of the SmartVerge® systems is compatible with the tiles or slates you are using please contact us on 01773 514 200 or e-mail your enquiry to [bpsales@manthorpe.co.uk](mailto:bpsales@manthorpe.co.uk).
