

THE ANORRATM

*The Premier Microgeneration Wind Turbine
Designed and Built for Canadians, by
Canadians*

Harvesting the Power of the Wind for You | borrumenergysolutions.ca

The AnorraTM is the only turbine of its kind and Borrurum Energy Solution's first widely available microgeneration wind turbine. It is designed to save you money, reduce your carbon footprint, and operate reliably through the toughest of Canadian climates.

Our design is 100% Canadian, and 85% of our parts are sourced in Canada. Our mission is to provide the highest quality for the lowest cost to you.

Choose the AnorraTM for your electricity needs.

FEATURES & SPECIFICATIONS

Designed for you

- Low noise
- Shipped pre-assembled
- Functions down to -50°C
- High electricity generation
- 10 year "bumper-to-bumper" warranty

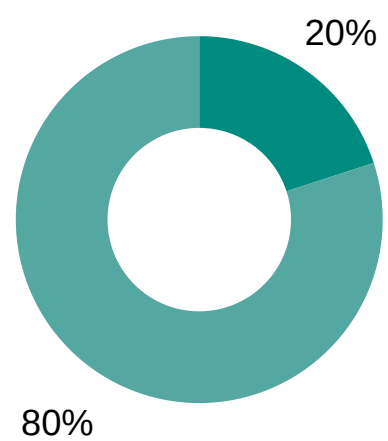

Ease of installation

- Can be assembled with common household tools
- Tower raised with SUV, tractor, or pickup truck

Freedom of green energy

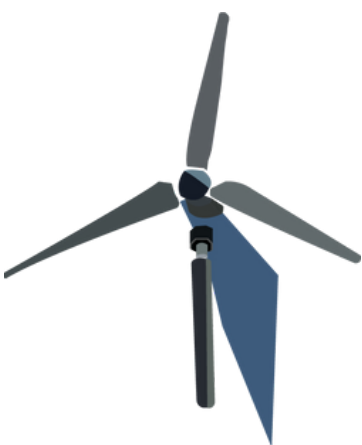

- no greenhouse gases emitted
- entirely off-grid system

Did you know?
By 2025, Canada's goal is to power 20% of the nation with wind power.

Don't wait, get started today.

REDUCE YOUR MONTHLY COST

With an investment payback in the range of 5-10 years or lower across Canada, you will benefit from the savings in no time*.

If you would like to see how much you would save with the AnorraTM, send us an email and we can provide you with a custom quote.
