

## Arch Series Expedition Cargo Bag - Instructions

**Step 1 :** Take all the components out of the box. You should have a bag, (2) frame pieces, (3) connector pieces. Place the frame pieces inside the bag, arched side up. Connect the velcro pieces (in bottom of bag) around the bottom of the frames.

**Step 2:** Place one connector piece in the middle of the frame. Once attached, slide to the side of the bag. Attach another connector piece. Once connected, slide to the other side of the bag.

**Step 3:** Place the final piece in the bottom of the bag. Leave this piece in the middle.

**Step 4:** Connect all velcro strips around the tubular frame. Pull the straps as tightly as possible
