STEP1

#UU top cover asphalt shingles, and long side facing outwards

Step1: #UU cover at the top. Repeat the previous step, put the #HH strip, screw #M, #U, #L screws, align the #XX, #WW cover with the top plate and the beveled side, then screw #M screws

First put the asphalt tile V under the top UU, then UU, WW, XX cover the asphalt tile V to play the role of gap leakage prevention.

|                                                                                                                         |                                                                                                      |                                                                                                       |                                                                                                        |

#X hooks can be  
freely assembled  
under the wooden  
beam

\*You can choose where to mount the hooks according to your  
needs, but be careful when screwing the hooks into the wood  
or you may crack the wood slightly
