Calm Dermal Vitamin Cream with Magnesium

Stay relaxed and naturally energized with SEABLUE®'s complete Magnesium dermal cream supplement. Magnesium is necessary for proper calcium metabolism, converts blood sugar into energy and provides temporary relief from minor aches and pains. SEABLUE®'s Magnesium dermal cream supplement is a great natural way to deal with everyday stress. Magnesium is an important nutrient that helps fight against heart disease, diabetes, migraines, constipation, and irritable bowel syndrome. Magnesium has both anti-inflammatory and anti-arthritic properties and can be applied directly to joints and muscles for the relief of pain. SEABLUE® Calm is a dermal magnesium formula that is an alternative to tablets and capsules.

Benefits: SEABLUE® Calm Dermal Vitamin Cream with Magnesium is designed to:

- Reduce emotional irritability
- Ease muscle cramps, aches and pains
- Improve sleep patterns
- Prevent gastric distress
- Relieves constipation

Main Ingredients: SEABLUE® Calm's vitamin supplement is magnesium. As an essential mineral, magnesium is necessary for the health and well-being of the body and is a major partner in more than 325 enzymatic reactions.

Suggested Use: Each dermal application contains above ingredients. Apply twice daily to inner forearms
