About Us

As an artist and international instructor in the face and body painting industry since 1998, Donna Nowak, founder and sole proprietor of ShowOffs Body Art, launched a line of makeup in 2012 and stencils in 2003. With years of hands-on experience and working knowledge as a representative of many of the industries leading products, Donna set out to create evolutionary products that would set new standards for performance, quality, safety, and affordability. Working with only USA-based producers, ProAiir Makeup was born. ProAiir is a unique blend of premium cosmetic-grade alcohol and pigments that outperforms all others for application, durability, vibrancy, safety, and longevity. Artists everywhere, professional and amateur alike, use ProAiir to create beautiful waterproof and smudge proof designs that last, and are gently removed with liquid soap when desired. As well, Donna created a line of stencils to help artists perfect their face and body painting craft and produce beautiful designs faster than ever before. With StencilEyes, Profiles, QuickeZ and more, brand new artists are cranking out consistently beautiful full face designs in three minutes or less. With an ever-growing line of interchangeable designs, the possibilities are endless!
