SEIKO

CLOCKS

INTRODUCTION: WHERE TIME BEGAN

Seiko's commitment to making the world's finest timepieces began over a century ago in a tiny clock shop in Tokyo. From the time Seiko opened the first clock factory in 1892, our dedication to quality and customer satisfaction has grown into an enduring legacy.

Today, that same passion for excellence remains apparent in every Seiko clock. Seiko is internationally recognised for precision timekeeping and innovation, with numerous 'world's firsts' in watches as well as in clocks. The Seiko name on a clock dial guarantees meticulous craftsmanship and inspired styling. This distinctive heritage, coupled with affordable pricing, makes Seiko clocks of unmistakable value.

THE BEAUTY OF TIME SINCE 1892

Seiko's commitment to making the world's finest clocks began over a century ago, in 1892, when Kintaro Hattori opened the 'Seikosha' factory and built its first clock.

Ever since then, the name Seiko on a clock dial has stood for exquisite craftsmanship, passion for excellence and dedication to quality.

Introduction of the Seiko Emotional Collection

FROM A LAND WHERE PERFECTION KNOWS NO LIMIT

For centuries, Japan has been home to craftsmanship that combined skill, creativity and tradition brilliantly. This aspect combined with an unflinching zest for technological innovation enables its people to capture not just their country's, but the world's imagination - no matter what the era. All of these values go into making a Seiko Clock. For time is a precious phenomenon that needs to be respected, leveraged and treasured in equal measure.

MELODIES *in* MOTION

This collection has captured the imagination of people the world over, with the visual spectacle and auditory harmony that it offers, unlike any other. It is designed for the discerning, for those who appreciate details and for those who desire more than just a timepiece. Time-honoured orchestral tunes, sparkling lights and a steady, graceful motion of certain parts of the clock, all synchronised together, help make a dull day bright again. These clocks also house an intelligent sensor that automatically shuts off the mechanism when the lights go off.

MELODIES IN MOTION

QXM291B

- Plastic case (44.3 x 40.5 x 9.7 cm)
- On the hour, the clock plays a melody (18 Hi-fi melodies: A, B & X + opening & ending)
- Light sensor disengages all melodies and motion when it becomes dark

SEIKO

WALL CLOCKS LUMIBRITE

Every Seiko clock has been designed to decorate your walls and create an ambience that's worthy of your taste. Although you will be tempted to keep looking longer than you need to, we've made sure that telling time is effortless. Be it day or night. Thoughtfully crafted dials with elegantly-crafted hour markers let you tell time in an instant, through the day. The markers are also coated with Seiko's LumiBrite fluorescent luminous paint, that quickly absorbs a great amount of any form of light and glows strongly in the dark. So whenever you want to know the time, a Seiko LumiBrite Wall Clock is all you need.
