Zero gravity positioning - maximizing effectiveness, efficiency and comfort.

It's easy to build stress, tension, and back pain in your daily life due to disk compression in the back.

When utilizing zero gravity your placing your body in a neutral posture position which allows those disks to decompress and reduce pressure on the back.

Couple that with the therapeutic massage and you'll feel the tension melt away.

4D real massage technology. The ultimate in Precision and the ease of being auto programmed.

4D mechanisms make it possible to deliver multiple Shiatsu techniques learned in Japanese Shiatsu schools. 4D is superior technique execution utilizing rhythmic vertical, width, and depth motions as comfortable as if they were real human hands. To relieve stiffness in specific different regions you can create your own custom massage course to focus on them by selecting any of the manual or auto technique that you need, with one button touch they are saved for the next time you need them.

Massage techniques of Japanese SHIATSU schools:Acupressure/Compression Technique

- Increase and decrease gradually: Standard technique, Blood circulation improvement, Relaxing muscles
- Increase and decrease rapidly: Focusing on medical treatment perspective
- Increase gradually and decrease rapidly: Deep layer technique, Removing accumulated fatigue by relieving tension of deep layer muscle
- Increase rapidly and decrease gradually: Effective for muscle pain and neuralgic pains

Dual body sensing, customizing the massage points and intensity best fit for you.

Through high performance dual layer sensors, KAGRA delivers an optimal and customized massage experience contoured to each individual's body. Pressing one button and your choice of 8 auto courses, foot massage, or various stretch options; lets you enjoy an effective and therapeutic massage.

Japanese quality

8-functionalities that lead you to extraordinary

1

From head to toe, ergonomic massage posture.

Adjustable backrest and footrest angles. Armrest positions that automatically adjust in conjunction with the recline of the backrest ensure full contact with all massage surfaces. Whenever you want to take a nap, KAGRA makes you feel as cozy as lying in bed. Turn on the triple layer heater and you'll never want to get out.

2

Unique upper body heating feature. Keep warm from head to toe.

Even if you feel cold you won't need a blanket, the heat pad can lay behind you to heat your back, in front for your chest and stomach, and even your hands with its pocket hand warmers. Add in the foot and calf heat and you'll be warm all over. Heat not only helps circulation, but helps loosen muscles and helps you achieve a peaceful relaxing time.

3

Immerse yourself in the experience with wireless speakers.

Bluetooth speakers are blended into the headrest so you can soothe your mind while you soothe your body by listening to the music you need. Not listening to music? The speakers are Bluetooth and wireless so you can stream whatever your favorite show is from your smart TV through the chair. There's also a specially designed storage pocket to place or retrieve your smart phone / tablet at your convenience.

4

Adjustable footrest. Multi-functional rotating ottoman so it's your chair, not just your massage chair.

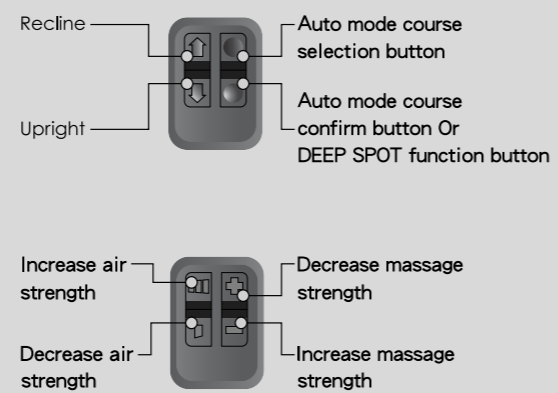

The Multi-functional footrest can be used for three purposes which are foot and calf massage, flipped to become an ottoman like a recliner, or stored to save space and look nice. KAGRA can even be a recliner to rest and sleep on. This adjustable footrest articulates its angles which extends and changes angles to accommodate users with different heights, so everyone can use the chair.

5

Finger Tip Keys - Controls you barely have to lift a finger for.

No trouble changing your incline and recline, the shortcut keys are at your fingertips. Your able to adjust backrest and footrest angles, massage intensity, and select / change preferred courses. Even if you're unfamiliar with the chair, one finger motion can get you what you desired.

7

Relax free from anxiety knowing the pet cover protects that important partner from crawling in.

Safely use in the house with cats and dogs since it's equipped with a cover that prevents them from crawling underneath the bottom of the chair.

6

With precise movements the Sole SHIATSU massager targets the arch of the foot to release tension.

The Sole SHIATSU massager utilizes air sent into a specially formulated dual layer air cell below the arch that work in tandem to project an inner air cell deep into the arch as smoothly as real SHIATSU. Coupled with the variable movements of the calf massager you feel the weariness melt from your legs.

8

The ottomans adjustable length and angles create the perfect angle cradling your feet feeling like it was custom made for you.

The ottoman can be extended up to 6.cin (16 cm). Long enough to accommodate nearly any user. The ankle angle is easily adjusted by pushing your feet forward so that you can stretch your body to reach the most comfortable position.

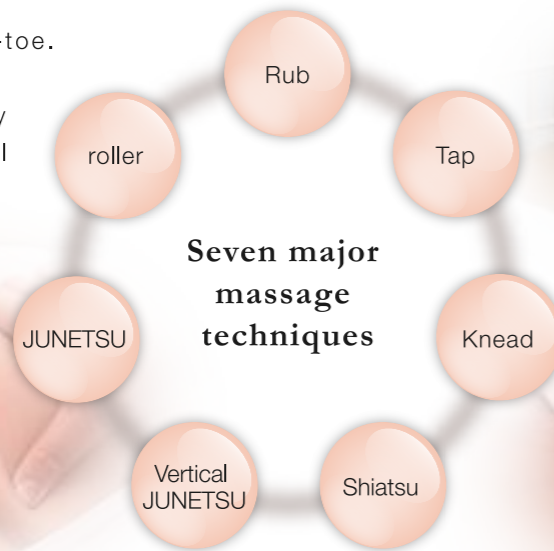

Massage Courses

Various courses relieving stiffness throughout the whole body.

Auto courses

Your whole body will be taken care of from head-to-toe. Utilizing advanced programming and seven key massage techniques special formulated for a best-in-class massage.
