

Massage chair RT6602 Presentation

The ergonomic design mechanism glide technology neatly fitted with the S shape body figure, the **1250MM super long** L-shape massage guide track delivering three dimensional massage along the entire length of the spine, and all the way down to hips and the thighs, covers up to **60% more** of the back than conventional chairs. It helps to promote flexibility, prevent injuries, ease muscle strains and aiding healing.

L型导轨：符合人体工程学设计，更加贴合颈部及腰部的曲线，1250MM超长按摩行程，按摩部位从颈部覆盖至臀部以下，按摩面积较常规按摩椅多出60%，帮助缓解颈部疲劳及腰部酸疼、保护生殖系统、改善四肢麻痹、坐骨神经痛等症状。

**The width of massage heads can
adjust between **6-20CM**
according to various user's body figures**

Equipped with optical coupler scan device which can locate the shoulder and neck, Super human hands 4 massage-head mechanism performs Kneading,Knocking,Sync,tapping,shiatsu and rubbing massage techniques, providing pinpoint supreme massage experience for users with all kinds of body figures.

手部解乏有妙招

Bumpy pad&air pressure massage for hands&arms

隐形设计：按摩手垫

Invisible design: bumpy massage pad

覆盖整条手臂&手掌，为气囊按摩加分！

Bumpy pad covers the full hands&arms,a perfect compliment to air pressure massage

There are 6 main meridians(collateral channels) and hundreds of acupoints on our hands,press on the acupoints has the effect of improving functioning in the relative parts.

A 404MM long,106MM wide,with 288 bumpy dots pad built along with the airbags for arms&hands, while the airbags pressing massage is running, the protruding dots will stimulate the acupoint on hands and arms to help boost the blood circulation.

为什么要做**可伸缩脚部**？

Manual extendable footrest

因为只有可伸缩设计才能同时满足155-185CM人群按摩需求
轻轻用力，即可到达最佳状态。

Meet the needs of users with body heights
between (155-185CM)

185CM

155CM
