Massage Chair
Benefits

PART 02

Functions & Features

Functions & Features

Zero Gravity Space Capsule create a quiet, inspiring space that helps to be renewed every day.

Developed by NASA scientists, the Zero Gravity technology has incorporated into our massage chair design, the horizontal position that the height of the legs slightly higher than the upper body, at 126 ± 7 degrees between the upper body and legs, at such a weightless position that the height of the legs slightly higher than the upper body, the weight of body can evenly distributed throughout, reducing the pressure of the spine and joints both physically and mentally.

2.1 Zero Gravity

Functions & Features

Optocoupler detection device helps to make more accurate and reliable shoulder detection. Mechanism will scan shoulder position before first time running of auto massage program.

Optical coupler scan device can locate the shoulder and neck and adjust coverage width automatically. There are 3 levels of massage width coverage namely Wide, Medium and Narrow, tap the icon to enter the massage width you desire.

There will be notice on remote control display screen after power on that reminds the user to lean the back, neck and head against the backrest of chair, which helps to improve the body scan accuracy.

It will start to run the desired auto program right after the completion of scanning.

2.2

Auto Body Figure
Detection

Functions & Features

Spinal health is so important ,it literally impacts the overall health and wellness. Every cell in our body is controlled by the central nervous system, and if the spine is not able to support the central nervous system as it should, then a lot of problems can pop up.

The super long SL-style guide track delivers soothing massage along the entire length of the spine, and all the way down to hips and the thighs, utmost suit the S-shape body curve, making the rollers precisely pinpoint the muscles in your spine which helps to promote flexibility, prevent injuries, ease muscle strains and aiding healing.

2.3

Super Long SL
Style Track

Functions & Features

The SL-track covers 1000mm from neck to lumbar, delivering massage along the entire length of your spine and all the way down to your glutes, extending high performance coverage of 9 main acupoint ——from the FEGNCHI acupoint at the neck to CHENGFU acupoint at the hips ——to reduce trigger sources for headache, tension, help sleeps, and soothe sciatic nerves.

FEGNCHI——Gallbladder Channel , used in the treatment of acute disorders, such as the common cold, influenza, headache, neck pain and fever. In addition, it lowers blood pressure.

CHENGFU——Bladder Channel, used in the treatment of Low back pain and sciatica.

2.3

Super Long SL
Style Track

Functions & Features

Push-up Kneading for 9 Main Acupoint

2.3

Super Long SL
Style Track

Functions & Features

Slider Recliner Linkage Mechanism

The massage chair reclines in the sliding motion.

It slide forward by **14.5cm** and requires only **10cm** of wall clearance.

2.4 Wall Hugger

Functions & Features

注意上次面对一些比较气囊数量的客户，怎么去回复。

Full coverage air pressure massage for shoulders, arms, hands, calves and feet, by using pushing, pulling, squeezing and pressing massage techniques of rollers, airbags and heat therapy, air pressure massage can help to increase blood flow.

2.5 Full Body Airbags

- Shoulder: 2-Layer airbag *2pcs
- Arm: 1-Layer airbag *4pcs
- Leg: 1-Layer airbag *12pcs
- Foot: 1-Layer airbag *8pcs

Functions & Features

Music immersion via Bluetooth

Powerful & high quality speakers allows music immersion via blue tooth,surrounding stereo speakers reproduce dramatic rises and falls of the sounds,providing unique experience of excellent melody.

2.6 Stereo Speaker

Functions & Features

Armrest quick controls allow quick, hands-on control of massage chair

2.7 Armrest Quick Control

Functions & Features

注意：实际带无线充电，+USB口

With built-in USB charging port, mobile phone holder enables phone charging and video immersion while enjoying massage

2.8 Mobile Phone Holder

Functions & Features

Auto extends footrest for various users

Before Extension

The footrest will extend by maximum 150mm automatically according to the user's leg length.

After Extension

2.9

Auto Extendable
Footrest

注意：实际产品小腿部不是自动检测，是弹簧型的，和6602一样。

Functions & Features

注意：加高小腿是卖点。恒温44度。

Graphene is the newest, strongest, thinnest, most conductive and 100% carbon material. As a conductor of heat, it outperforms all other known materials.

Equipped with thermostat, the perceived temperature stays at 44 degree, which can help to increase blood circulation, soften hard muscles, dilate blood vessels and so to relieve pain.

2.10

Ultrafast Graphene Heat
for Back, Knee & Lower Leg

Functions & Features

注意：这里只是普通的气囊按摩方式，和6602一样，不要被中文描述误导。

Airbags at both sides of foot apply alternating squeezing massage to mimic the forward and reverse human hands kneading massage,

Meanwhile airbags at both sides of foot compressed to deliver pressing massage.
