

Fawn Lake Fountains LED Light Kit Installation Instructions

- (3) 6 Watt HD underwater rated lights
- 100' power cord
- Stainless Steel hardware
- 50 Watt Transformer
- Red, Green, and Blue Color Filters

First secure the three lights as shown to the bottom of your fountain float with the provided stainless steel bolts, split washers and flat washers. Do not over tighten!

Attach stainless eyebolt to one of the internal threaded inserts and secure with nut

Use provided zip-tie to secure light power cable to eyebolt. The power cable should not have any stress on the first light fixture. Connect the end of the power cable to the supplied transformer and enjoy the show.

Notes:

- *Light kit should be installed while fountain is on land.*
- *Do not try to tighten any fittings as doing so can damage waterproof seals.*
- *When using the included light filters, carefully unscrew the top of the light fixture, place the filter **on top of the glass lens**, and then reinstall the top of the light fixture.*

Fawn Lake Fountains Warranty

Fountains

All new (non-clearance) standard fountains come with an 18-month manufacturer's warranty from the date of purchase on the fountain pump. Our Pro line of fountains comes with a full 24-month pump warranty from the date of purchase. All other fountain parts (fittings, nozzles, and fountain float) have a limited lifetime warranty. **Fawn Lake Fountains will not warranty any fountains that have been modified in any way. We also will not warranty any fountains that have been abused*, run out of water or electrically modified.**

Light Kits

All new (non-clearance) light kits come with a 1-year warranty. **Fawn Lake Fountains will not warranty any light kits that have been modified in any way.**

Parts

Fountain parts are all covered under our standard 1-year warranty. **Fawn Lake Fountains cannot warranty any parts that have been modified in any way.**

***Abuse includes fountain pumps that are returned for warranty that show excessive sand/dirt/mud ingestion or signs of having been run dry. Fountains will not be warrantied if the issue is due to negligence.**
