

Fawn Lake Fountains - SF Series Fountain Installation Instructions

- 1: Attach pump to included output adapter- Hand tighten only!
Although the pipe adapter may look different than pictured, if you purchased our standard SF25, SF50, or SF75 Fountain, installation follows these same steps.
- 2: Attach float so that the threaded end protrudes through center hole and install float retaining nut
- 3: Attach Nozzle of your choice

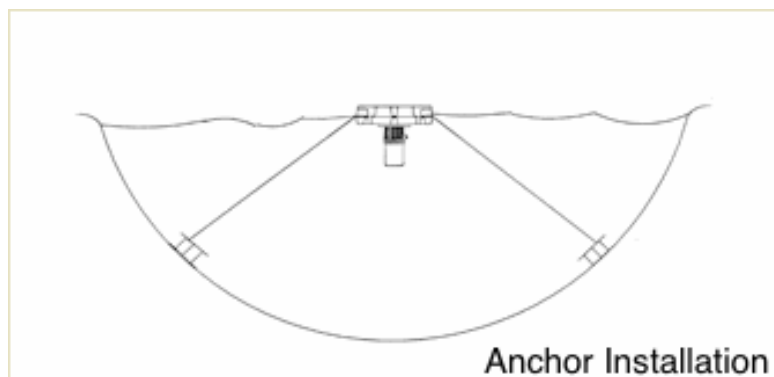

Multi-Pattern Nozzle comes with a pre installed center stream stopper. If you wish for water flow to exit the center tube on this nozzle, you must remove this stopper. When using a deflector, be sure to use the included setscrew to secure it in place. Adjust the deflector height to obtain the look you're satisfied with.

Nozzles should be securely attached to threaded pipe. Teflon tape can be used to provide an even more snug fit.

Be sure to anchor the float from both holes. Due to the weight of the SF100 Fountain, it may not float perfectly level. This can be corrected by tightening the anchor lines.

Warranty Info

Fountains

All new (non-clearance) standard fountains (SF25, SF50, SF75, SF100) come with an 18-month pump warranty from the original date of purchase***. Pro fountains (Pro-150, Pro-500, Pro-1000) come with a full 24-month pump warranty from the date of purchase. All other fountain parts (fittings, nozzles, and fountain float) have a limited lifetime warranty. Fawn Lake Fountains will not warranty any fountains that have been modified in any way. Fawn Lake Fountains will not warranty any fountains that have been abused*, run out of water or electrically modified** in any way.

Aerators

All new (non-clearance) aeration kits come with a limited 2-year warranty***. Fawn Lake Fountains will not warranty any aeration kits that have been abused* or electronically modified** in any way.

Light Kits

All new (non-clearance) light kits come with a 1-year warranty. Fawn Lake Fountains will not warranty any light kits that have been modified** in any way. Light bulbs are not covered by this warranty.

Parts

Fountain and Aeration parts are all covered under our standard 1-year warranty.

Fawn Lake Fountains will not warranty any parts that have been modified or abused in any way. Aerator diaphragms are a wear item and are not covered.

***Abuse includes fountain pumps that are returned for warranty claims that show excessive sand/dirt/mud ingestion or signs of having been run dry. Fountains and Aeration units will not be warrantied if the issue is due to negligence. Damage of aeration kits hoses and diffusers due to normal use is not covered under any warranty.**

**** All warranties are voided if the power cord has been cut, extended, reduced, or otherwise modified in any way.**

***** Aeration pump diaphragms and fountain pump impellers are a normal maintenance item and as such, are not covered by any warranty.**
