Our Store

Right from the establishment in 2007 to date in the business of designing, manufacturing and marketing furniture and home accessories, we, as a boutique brand, have achieved an extremely loyal following. A brand which is eternally on the look out for inspirations from everyday life, of travels, of unapologetic nostalgia. Each piece of furniture has a bit of a back story - a raison d'être so to speak. With influences that are as diverse as old classic movies, rock music, books, a colour, a building or even a flower. This is what makes our products so much more relatable and personal. They exude a warmth that is old-worldly at first glance but are thoroughly modern in their interpretations and executions.
