ABOUT THIS PATTERN

These ankle cozies showcase the timeless beauty of the basket stitch, adding a touch of texture that's both modern and classic. The pattern begins with an invisible cast-on technique, ensuring a seamless and polished start to your project. As you knit through the broken rib stitch, the pattern creates a dynamic interplay of raised and recessed sections, providing a cozy warmth that feels like a gentle embrace for your legs. For a flawless finish, these leg cozies use an invisible bind-off technique. At the end of the pattern, you'll discover an option that lets you calculate your own custom measurements, ensuring the perfect fit tailored just for you!

Want a more customized fit? Try this:

Measure the circumference of the widest part of your lower leg where you'd like the top of your ankle warmer to rest. Take that measurement and multiply it by 5.5, then round down to the nearest even number – that's the total stitches to cast on. Then, just follow the rest of the pattern and have a blast with your creation!
