LIKE NONE OTHER

FL-1 Standard

Light & Motion was the first to certify every light to the FL-1 Standard. Certified to preform, Sola offers patented dual beam systems (spot/flood or S/F) and powerful, precise beam patterns.

LOW MAINTENANCE

No fuss

Rinse in fresh water and dry completely before charging. No batteries to loose and no o-rings to check. Make things simple.

RECHARGEABLE

Reliable External Charging

Don't open a light to recharge! External charge interface offers long-term reliability and safety. Add our USB-C adapter for ultimate convenience.

FACTORY SEALED

Tested Reliability

Certified to a depth of 100 meters, Sola's factory-sealed design offers reliable flood-free performance.

SMART & SAFE

Safety is a Priority

Light & Motion's patented voltage regulation and factory sealed battery provide the safest option on the market. Travel lockout comes standard on all models.

MODULAR SYSTEM

Designed For Versatility

Sola 15K and 12K are now compatible with other Light & Motion plates from earlier Sola Series, and also offers compatibility with Stella. Ask your local Sola dealer for details.

Charge Status
