- 112 cases produced

Introducing "Spooky Juice," a natural white wine that pays homage to the celebrated Rhône tradition of blending Marsanne and Roussanne grapes. These varietals have long been the backbone of many iconic white Rhône wines, lauded for their complementary profiles that bring both richness and complexity to the blend. Sourced from Camp 4 Vineyard in the Santa Ynez Valley, our 77% Marsanne and 23% Roussanne blend is cultivated using eco-conscious practices that echo the natural winemaking methods used to make this wine. This allows "Spooky Juice" to capture the spirit and terroir of its unique origins, resonating with the mineral-rich soil and the vibrant biodiversity of the vineyard.

"Spooky Juice" radiates a golden hue, setting the stage for its hauntingly beautiful bouquet. Expect aromas of stone fruits interwoven with floral whispers, honeycomb, and a sprinkling of spice. Marsanne graces the palate with its lush notes of honeysuckle and melon, while Roussanne brings a vibrant dance of herbal tea and pear. Together, they create a full-bodied wine marked by balanced acidity, a nod to the illustrious Rhône wines that inspired it.
