

**You will need :**

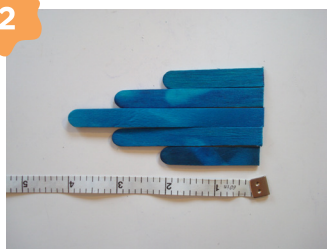

- Colourful Lollipop sticks (50 sticks depending on length)
- A length of string
- Glue gun

1

You can go with multi-coloured or have own colour scheme, you will need to paint your lollipop sticks with acrylic paint. You'll then need to put your lollipop sticks into groups of five.

2

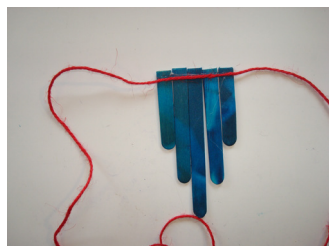

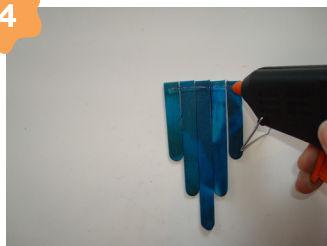

Cutting the centre stick to 4", the inner sticks to 3" and the outer to 2".

3

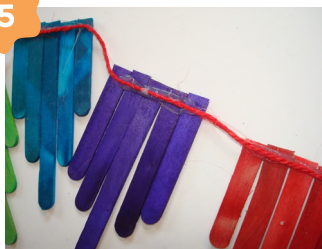

When you have done this for all of your sticks, you'll now need your string to begin the gluing process.

4

Place a small amount of glue on the top of your lollipop stick (at the flat end which you have cut) and stick this to your string (**please be sure to supervise children at this step**).

5

Continue to glue in your groups of five, leaving about a 1" gap between each of the patterns.

6

Once you've finished you'll have the perfect decoration for any party or a lovely addition to any child's bedroom!
