

You will need :

- Multi-coloured pipe cleaners (pick 3 colours)
- Card (pick 1 colour)
- Scissors
- Ruler
- Pencil
- Sticky tape

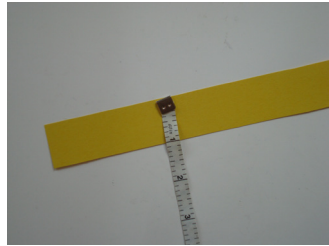

1

Cut each coloured pipe cleaner to an individual size - one colour needs to be 6", the next 4" and the smallest needs to be 3" - as these will make up the lines of your rainbow. You'll

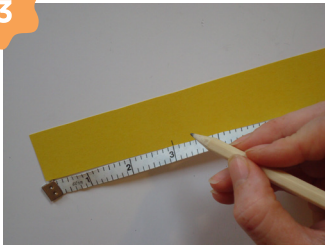

need around seven strips of each colour to fit the entire way around the crown.

2

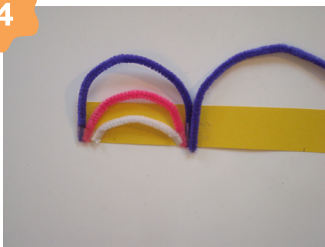

To make the base of the crown, grab your card and measure a 1" wide strip, and roughly measure this to the length of your child's head.

3

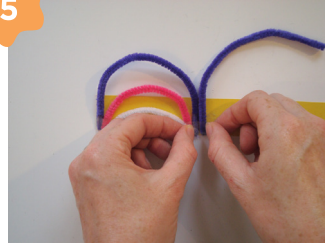

Once this has been cut out, you will need to measure and pencil 3" markers across the card, as this will be where the rainbows/pipe cleaners will be positioned.

4

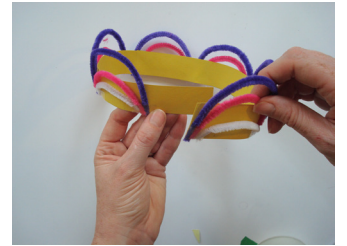

You'll then need to bend your pipe cleaners to fit along the 3" markers, starting with the largest size of pipe cleaners, and stick these on with sticky tape.

5

You'll then need to do the same with the 4" pipe cleaners, placing these inside the first row, to begin the rainbow effect. Fix again with sticky tape, and repeat with the smallest and final pipe cleaner colour.

6

Finally, fix each end together with sticky tape or a stapler to see the crown come to life!

7

Live like royalty for the day and enjoy your new crown.
