## PLUMP

### PALM VIBRATOR CARE AND INSTRUCTION MANUAL

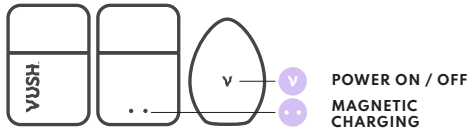

#### HEY BABE, COME HERE OFTEN?

Welcome to your self love journey! We're so excited to introduce you to Plump!

Plump is the overall vulva vibrator that is squishy, soft, and plenty of fun. An overall vulva vibrator means that all your bases are covered at once, whether you want all over pleasure or precise vibes, Plump is your pal. Plump can't wait for you to show you a whole new world.

Plump may look like something you haven't seen before, and it isn't something to be looked over! Plump comes with 10 vibration settings to play through and although not as intense as your old faithful's, Plump can blow your socks off!

#### CHECK ME OUT

#### YOU'RE IN CHARGE

Before we can get down to the good stuff, your Plump will need to charge for 2 hours. Your charger will be in the lid of the toy tube. Insert the main USB plug into any USB port.

##### IN CASE CHARGING

Connect the charger with the charge port on your Plump case (those two fancy silver dots). Ensure the charge dots on the toy are lined up with the two on the inside of the case.

##### DIRECT TOY CHARGING

Connect the charger with the charge port on your Plump (those two fancy silver dots).

You'll feel a slight pull and a click, followed by your Plump LED light flashing to let you know it's charging (just above the **V**!). Catch up on that show you've been meaning to watch - it won't be long! The LED will stop flashing when your Plump is ready to play.

For best performance, we recommend only charging your Plump with the provided VUSH charger.

#### TURN ME ON

Charge Plump for 2 hours to reach full charge.

Hold down **V** for a few seconds to turn on.

Press **V** to search through the 10 settings.

Make some magic!

Press and hold **V** to turn off.

#### PLEASURE TO MEET YOU

Settle in, get comfortable, and turn on your Plump. Choose your fave starting level. Plump is perfect for all over vulva stimulation

The narrow end of Plump can be positioned over your selected area and try different levels, patterns, and pressures to find how to best love yourself! The entire body of Plump can then be used to stimulate the whole area of the vulva.

#### Lubrication:

If you'd like extra lubrication for your Plump, you can apply as much as you need to the tip or area of Plump. It's important to only use water-based lubricants like VUSH Feelin' Myself Intimate Gel with your Plump. Other oils, creams, or silicone-based lubricants can damage the high-grade silicone of your toy over time.

#### GOOD CLEAN FUN

Always clean your Plump thoroughly before and after each use. It's waterproof, so simply wash with clean water and unscented soap, then rinse and refresh with Clean Queen Intimate Accessory Spray for additional protection. Pop Plump back in its case once dry - ta da!

For those times when you need something quick and discreet (like when your roommate is using the bathroom for karaoke practice), you can also use a gentle wet wipe, like VUSH You Do You wipes.

Show your Plump a little more love and care! Always store Plump with its lid on, to avoid dust build up or damage from other materials, and to keep it safe from sunlight or other extreme heats.

#### SAFETY FIRST

Plump is for adult use only. Keep out of reach of children. Those who may be pregnant, have a pacemaker, diabetes, phlebitis, thrombosis, or any other condition, should consult with a medical professional regarding the risk of blood clots before using any personal massage product.

Do not use on areas that have pre-existing injuries or on swollen skin. For some, excessive use of vibrating devices can cause temporary numbness and loss of sensitivity. If this happens, take a break and treat yourself to another self love practice.

If pain occurs please cease use immediately. Consult a doctor before use if you have any implanted devices, such as a pacemaker, or if you have had any form of surgery on the relevant body parts. VUSH assumes no responsibility for misuse or excessive use of this product. Always switch off after use.

#### SPECS

<b>PRODUCT SIZE:</b> 83 x 55mm	<b>POWER INPUT:</b> 5V
<b>MATERIAL:</b> Medical grade silicone/ ABS Case	<b>BATTERY TYPE:</b> Flexible polymer lithium battery
<b>PRODUCT WEIGHT:</b> 148g	<b>FREQUENCY:</b> 10 modes
<b>WATERPROOF:</b> IPX7	<b>BATTERY CAPACITY:</b> 300mAh
