Specifications

Container volume: 61oz (1.8L)

Spray flowrate: 2.4oz/min (70mL/min)

Effective spray distance: 10ft (3m)

Air flowrate: 8800cft (250cbm)

Static ion coverage distance: 16ft (5m)

Negative ion intensity: 8200/in³ (500/cm³)

Battery: Li-ion 20V- 5000mA (2 batteries)

Charger input power: AC 100-240V 50hz/60hz

Current: 6 amps

Power: 129W

Charging time: 3 hours

Operating time: 50~60 minutes

Noise level: 75dB

Net weight: 2.1lbs (0.95kg)

Disinfecting anytime and anywhere

The container is made of Polyethylene; it is non-toxic and tasteless, suitable for most of the chemicals. Minion 2.0 sprays very fine mist of liquid/disinfectant particles for disinfection and sanitization.

Long Spray Projection

Fine Atomization

High Intensity Ionizer

Electrostatic mist sprayer and sanitizer

Electrostatic mist absorbs viruses, bacteria,
PM2.5 and aerosol in air and makes the
sanitization more efficient.

Unique Technology

Large battery capacity

Continuous working for 50 minutes

5000mAh

Built-in detachable
rechargeable
battery pack

20V

BATTERY PACK

Voltage: 20V DC

Power: 92.5W

Battery: Lithium-ion

Suitable for sanitizing public and large spaces

Offices

Schools

Restaurants

Supermarkets

Gyms

Hospitals

Public Transport

Hotels
