

2 HP Cyclone Dust Collector

SB1092

South Bend® 2 HP Cyclone Dust Collector

SB1092

FEATURES

- Built-in sound muffler
- Steel stand with built-in casters
- Clear disposable plastic collection bags
- Automatic filter paddle brush for easy cleaning
- Reinforced motor mount
- Remote controlled magnetic switch
- Timed shutoff settings
- Rolling collection drum with quick-release lift handle for easy sawdust disposal
- Vacuum equalizer built into collection drum for use with collection bags
- US based customer service and technical support

SPECIFICATIONS

- Motor: 2 HP, 220V, single-phase, 9A
- Main inlet size: 8" with two 4" adapter inlets
- Airflow capacity: 1132 CFM @ 1.1" SP
- Maximum static pressure: 11.5" @ 0 CFM
- Filtration rating: 1 micron
- Filter surface area: 29 sq. ft.
- Impeller: 14½" radial fin
- Collection drum size: 28 gallons
- Switch: Remote-controlled magnetic with thermal overload protection
- Overall dimensions: 19" W x 31" D x 64" H
- Approx. shipping weight: 338 lbs.

WHERE PORTABILITY AND PERFORMANCE MEET EASE OF USE

If your shop demands performance and convenience in a compact, portable dust collection, look no further than the South Bend 2 HP Cyclone.

The two-stage collector separates the large chips and debris into an easy-to-empty 28-gallon drum, then the fine particles travel through a self-cleaning 1-micron pleated filter and collect into the lower plastic bag.

The 1-micron filter is made from spun-bond polyester with an electronically-controlled brush paddle helping to ensure the filter stays clean and ready for work.

The 2HP TEFC motor and 14½" steel radial fin impeller produces 1132 CFM through the massive 8" inlet, which features a removable triple-port fitting for connecting up to three machines with 4" dust lines.

Compact, with a low overall height of 64 inches, you can confidently and smoothly wheel the collector to your desired location where other, taller dust collectors on the market can't fit.

Once you find your preferred location, simply connect the hose line and turn on the machine via the included RF wireless remote control when needed.

From the first time you use this machine, you'll be amazed at its powerful collection strength.

You will appreciate how quiet it is compared with other 2 HP dust collectors, thanks to the built-in noise reduction muffler.

Dust disposal couldn't be easier with high-end features such as automatic power-driven filter cleaning brushes, a unique secondary drum for fine powdery dust with window for monitoring dust level, and a quick-release lid lifting handle.

Power and convenience - portability and performance - you'll get it all in this compact 2 HP dust collector.

WARRANTY INFORMATION

South Bend Tool Company warrants every product it sells for a period of 2 years to the original purchaser from the date of purchase. We make every effort to ensure that our products meet high quality and durability standards so that you never need to use the warranty. Please feel free to write or call us if you have any questions about the machine or the manual.
