- Main inlet size: 6" with three 4" adapter inlets
- Airflow capacity: 1103 CFM @ 3.5" SP
- Maximum static pressure: 11.95"
- Filtration rating: 1-micron
- Filter surface area: 80 sq. ft.
- Impeller: 12" radial fin
- Machine collection capacity at same time: 3
- Material collection capacity: 33½ gallons
- Switch: Remote-controlled magnetic with thermal overload protection
- Overall dimensions: 39" W x 31½" D x 76" H
- Approx. shipping weight: 165 lbs.

SB1101 SPECIFICATIONS

- Impeller Motor: 3 HP, 220V, single-phase, 12A
- Main inlet size: 7" with three 4" adapter inlets
- Airflow capacity: 1429 CFM @ 3.2" SP
- Maximum static pressure: 12"
- Filtration rating: 1-micron
- Filter surface area: 160 sq. ft.
- Impeller: 12¾" radial fin
- Machine collection capacity at same time: 3
- Material collection capacity: 67 gallons
- Switch: Remote-controlled magnetic with thermal overload protection
- Overall dimensions: 58" W x 31½" D x 76" H
- Approx. shipping weight: 237 lbs.

Made in an ISO 9001 factory

EQUIP YOUR SHOP WITH A HIGH-END SOUTH BEND DUST COLLECTOR AND BREATHE EASY

The 2 and 3 HP Single-Stage Dust Collectors are the perfect mid-sized dust collectors for serious hobbyists and professionals alike.

Each dust collector can be connected to up to three machines running simultaneously as a stationary unit. With its locking swivel casters, it can be easily moved around as a point-of-use machine as well.

The smaller unit features a 2 HP motor and has a collection capacity of 33½ gallons. The larger version is supplied with a more powerful 3 HP motor and double the collection capacity at 67 gallons.

Either one will help keep the air and surfaces in your shop dust free with their quality construction and high-end features not found on typical dust collectors sold by other brands.

South Bend dust collectors feature automatic motorized filter brushes that clean the internal dust from the canister filter pleats at regular intervals.

A built-in vacuum gauge that tells you when it's time to replace the filter and a remote-controlled magnetic switch allows you to power up and shut down the collector from anywhere in your shop.

BUILT TO TRUE SOUTH BEND HIGH-PRECISION INDUSTRIAL STANDARDS

The manual was written by our U.S. based Technical Documentation Department and is packed with useful information. The complete and easy to read manual provides full instructions on how to assemble and maintain your bandsaw.

The South Bend Customer Service and Technical Support Teams are U.S. based. Parts and accessories for the bandsaw are available on-line and shipped from the South Bend parts warehouse in Springfield, MO.

WARRANTY INFORMATION

South Bend Tool Company warrants every product it sells for a period of 2 years to the original purchaser from the date of purchase. We make every effort to ensure that our products meet high quality and durability standards so that you never need to use the warranty. Please feel free to write or call us if you have any questions about the machine or the manual.
