

WIFI STREAMER | AS-53BT

STEREO WIFI AUDIO ROUTER WITH BLUETOOTH,
SPOTIFY & AIRPLAY

ALHAAN

The AS-53BT stereo device streams high resolution music through network connections over long distances. Compact and sleek in design, this device converts outdated passive speakers into modern multi-functional wireless speakers which streams music through Wi-Fi or Bluetooth. When the devices are connected on the same network, the music streaming can be controlled via smartphone or tablet. Recommended for home TV audio, computer audio, tower and garden speakers, this device allows you to use high quality music everywhere.

FEATURES:

- ▶ Allows wireless music streaming via WiFi or Bluetooth
- ▶ With micro SD card reader, USB reader and AUX input for more audio sources
- ▶ Supports online music, Internet radio, Airplay, DLNA
- ▶ Convenient music management by MUZO APP
