

GARDEN SPEAKER | GS-30E

## 30W OUTDOOR GARDEN SPEAKER

ALHAAN

The GS-30E Garden Speaker is a weatherproof environment friendly model designed to effortlessly blend into both in-ground or above ground usage in shopping centers, parks, parking lots, theme parks, restaurants and cafes for background music and broadcast paging. Its thick shape and scratch resistant built can withstand heavy damage while facilitating connection with multiple loudspeakers over long distances. Besides being cost effective, this garden speaker is quite popular as the installation process is effortless.

### FEATURES:

- ▶ Outdoor high power speaker
- ▶ Radial design enable 360 degree sound dispersion
- ▶ Low frequency delivering depth sound
