

CABLES | MC-53

## MICROPHONE CABLE

ALHAAN

Used mostly for large crowd stage performances and studio settings, Our MC-53 Microphone Cables provide an extraordinary performance despite the harsh environment it faces due to continuous usage. Notwithstanding its competitive pricing, the cable guarantees great performance due to its large cross section which enables outstanding quality of transmission over long distances. The Microphone cable not only has excellent price/quality ratio but also guarantees less instances of distortion due to its low capacitance feature which make it ideal for purchase.

### FEATURES:

- ▶ High Strand Count
- ▶ Braided Shielding
- ▶ Impact absorption
- ▶ Less Distortion
- ▶ High Performance

## TECHNICAL SPECIFICATIONS

MODEL	MC-53
Product Type	Speaker/Audio systems cables AWG16
Specification	2*(28/0.08mmBC+1.5mm PE)+filling cotton yarn+tissue paper+64/0.08mm BC
Conductor	Material: 2x260/0.08mmBC/TC
Insulation	Insulation: PVC Construction: 2 cores Jacket: 5.9mm Jacket Color: Black
Operation Temperature	-20°C To +70°C
Working voltage	<80 V( Microphone Cable)
Print words	ALHAAN Micro 2x0,2PVC, Model : MC-53
Packing	Packing: 100m/roll Q'TY /CTN: 4 Rolls/CTN
