WIRELESS HANDHELD & COLLAR MICROPHONE SET

ALHAAN

The WLCH-210 Wireless Handheld & Collar Microphone Set is an ideal system for mid-size events in hotels, offices, schools and places of worship. The simple operation and fast set up make it perfect for usage with brilliant sound and optimized dynamic range. With its compact and lightweight body as well as the freedom to move while speaking, gives one the room to focus and amplify their voice to deliver or record lectures with superior sound quality.

FEATURES:

- ▶ UHF Wireless Microphone
- ▶ Dual receiver
- ▶ Handheld / Headset / Clip mics
- ▶ Frequency range:UHF500-900MHz
- ▶ Channel:fixed channel
- ▶ Modulation mode:FM
- ▶ Frequency respond:60Hz~15KHz(±3dB)
- ▶ T.H.D.:<0.1%(1KHz)
- ▶ Received distance:80M

TECHNICAL SPECIFICATIONS

| MODEL | WLCH-210 |
|-----------------------------------|--------------------------------------|
| Frequency range | 620MHZ-950MHZ |
| Debug mode | FM |
| Modulation range | 25MHZ |
| Channel spacing | 250KHZ |
| Frequency stability | ±0.005% |
| Dynamic range | 100db |
| Maximum deviation | ±45KHZ |
| AF response | 80HZ-15KHZ(±3db) |
| Overall S/N ratio | 105db |
| Overall distortion | ≤0.8% |
| Receiving sensitivity | 12dBuV(80dBS/N) |
| Total harmonic distortion | <0.3%(at 1khz) |
| Harmonic interferency | ≥50db |
| Mirror interferency | ≥60db |
| Transmit power | 10mW ai high power, 3mW at low power |
| Operating environment temperature | -10°C~+40°C |
