

WALL MOUNTED SPEAKER | SWS-30B

30W CABINET SPEAKER (INDOOR)

ALHAAN

The SWS-30B 30W Cabinet Speaker is generally used for background music and speech in indoor environment such as restaurants, showrooms, exhibition areas, conference rooms, etc. The design and innovative technique lessen line losses over longer distances and allows effortless connections in parallel arrangement of multiple loudspeakers. It is ideal for use in commercial and industrial areas where it can withstand various environmental conditions unlike its plastic and metal body counterparts.

FEATURES:

- ▶ Indoor wall mounted speaker.
- ▶ Unique appearance design with wide coverage sound.
- ▶ Clear and soft tone by adopting two divided frequency design.
- ▶ Constant impedance and constant voltage can be switched over.
- ▶ ABS enclosure and metal net.
