Philosophy & Origin

So Watt is a small, family owned and run furniture design and manufacturing company, founded in 2015 in Sydney Australia.

We are proud to manufacture all our designs in our Marrickville studio workshop using sustainable materials and high end equipment.

Our goal is to provide quality furniture and joinery at prices that are accessible for as many people as possible, to encourage more consumers to buy Australian made. As such, our prices are competitive to begin with leaving only small opportunities for further discounts on larger orders.

We are forever grateful for your support of our business and Australian design and manufacturing.

Warm regards,

Jonathan + Sophie Biet

So Watt exclusively uses Australian materials for our core range!

All our furniture is made in our Marrickville workshop!

Our pieces are hand made to order and available in custom sizes!
