

# National League Player's Stats

1901 – 2019

By Brian Aldridge

[pro-baseball-journal.com](http://pro-baseball-journal.com) & [chicagosportsjournal.com](http://chicagosportsjournal.com)

# Preface

Your book of **National League Statistics** is simply a year-by-year listing of batting and pitching leaders. While baseball statistic itself won't tell the whole story, it does give the reader a glimpse of the player's skill or how well (or poorly) the team performed. Don't believe me? Just talk to a devoted follower of **Fantasy Baseball**. These folks survey box scores, trends, weekly reports, injury lists, and sites where the next series is played. Members of the Society of American Baseball Research (**SABR**) take metrics to a deeper, wider level and much can be learned by what they find. Meanwhile, the rest of us just look at the daily box scores to see if our team won or lost and who played well.

Although the NL formed in 1876, this book begins in 1901 – the year baseball began the “modern era.” For the NL, the previous 25 years were tumultuous: one competing league began in 1880, another in 1884, and a third, led by a player revolt, formed in 1890. Rules for walks changed several times during the 1880s; the distance from home to the pitcher's mound increased twice; after 1887, batters could no longer call for a specific pitch, and only 1 baseball was used and only 1 umpire supervised each the game.

Current research notes that record keeping at the time was spurious or spotty at best. Still, some numbers stick, like 714 (number of HRs hit by **Babe Ruth**) and 61 (number of HRs **Roger Maris** hit in 1961). These two ML records were later broken by the same person (**Barry Bonds**; 762 & 73). Other records will most likely remain: **Joe DiMaggio's** 56-game hitting streak, **Hack Wilson's** 191 RBIs, and **Cal Ripken's** streak of 2,632 consecutive games played.

When reading this book, two things might emerge: those players you still remember and those you had long forgotten. It's time to meet them all again.

## Dear Friends:

**Pick a team and a year:** Who were the stars? Anyone on your team listed?

Was the batting race close?

**Pick your favorite player:** I offer you an extremely short list on National League stars:

Honus Wagner, Rogers Hornsby, Pete Alexander, Hack Wilson, Stan Musial, Willie Mays, Ernie Banks, Hank Aaron, Roberto Clemente, Willie Stargell, Sandy Koufax, Tom Seaver, Mike Schmidt, Lou Brock, Tony Gwynn, Greg Maddux, Albert Pujols and Clayton Kershaw.

**Pick your favorite stat:**

- While Babe Ruth was clubbing HRs in the AL, who was the HR leader in the National League?
- How dominant was Koufax in the 1960s; Bob Gibson in 1968? Steve Carlton in 1972?
- How many times has an NL pitcher lead the league in wins with less than 20?
- Note the many players who came close to achieving the Triple Crown.

**Note trends:**

- Not only did HRs rise and fall; stolen bases and batting averages did the same (compare the top batting averages in late 1920s with those of the late 1960s).
- Pitch counts? What pitch counts? Note the number of innings pitched in the early 1900s, 1960s, the 1990s, and 2018.

# Acknowledgments & How to Use This Book

## ***Acknowledgments:***

My dad was amazed (and occasionally perplexed) at how much I enjoyed knowing past and present pitching and hitting leaders. So, this book (and its NL counterpart) are dedicated to him. He passed away in late 1982, but I can still hear his voice and see his warm smile when we talked sports.

**Primary sites used:** baseball-reference.com, Sports Illustrated magazine, Baseball Digest, Chicago Tribune, Daily Herald, and SABR journals.

For a more detailed list of sources, see my bibliography on the **pro-baseball-journal.com** site.

**Terms:**      **2B** (doubles)   **3B** (triples)   **SA** (slugging average: total bases/at-bats)

**Extra Base Hits** (doubles, triples, and HRs)

**WAR** (Wins Above Replacement)   **WAR (H)** = Hitters   **WAR (P)** = Pitchers
