CHOR DICRLAY	-

We are **organic farmers and processors** who have been working since 1978 to produce delicious food, the result of farming practices that respect the land and its fertility.

We bring together more than 1.000 farmers in Italy and over 10.000 small family-run farms in Central and South America. For more than 40 years we have been choosing organic farming, nurturing the delicate balance between our Planet and its Inhabitants: this is why we have decided to produce foods which are good for both. Products made from ingredients grown without the use of synthetic chemicals, thanks to state-of-the-art agronomic capacities, with utmost respect for the land and the people who cultivate it. Products processed with techniques which protect and exalt the characteristics of our ingredients, also thanks to ingredient lists which are always short and simple, free from preservatives and additives.

We propose simple and daily products, which haven't forgotten the taste, the pleasure of gathering around the same table and to be shared. Today we have about 400 products: pasta, rice, tomato purée and pulp, vegetables, legumes and puréed soups, biscuits and fruit juices, spreads and honey, plant-based beverages and a range of baby food for infants. Additionally there is the range of fresh and chilled food, including, fruit, vegetables and soups, along with the frozen range and organic Fairtrade produce sourced from Latin America and India: coffee, chocolate, cocoa, brown sugar, Basmati rice and tea.

ORGANIC INGREDIENTS FROM THE BEST ITALIAN REGIONS

Alce Nero is a company made up of producers and processors, many of whom are members, involved at every stage of production, from the selection of the most suitable varieties of cultivation, to techniques for sustainable agriculture, to the processing of raw materials that retain their natural characteristics. We focus on local productions, the land, the environment: these deep commitments are the engine of our growth.

Our main ingredients are cultivated in the best agricultural areas of Italy: durum wheat grows in the regions of southern and central Italy, tomatoes in the Emilia Romagna and Tuscany regions, extra virgin olive oil from Apulia region. Fruit orchards are situated in the best areas suitable for production in Emilia Romagna and Tuscany and honey is being collected by beekeepers in various regions and seasons.

ALCE NERO SHAREHOLDERS OUR UNIQUE BUSINESS MODEL

We are a joint stock company, our shareholders are farmers and processors who believe in organic production as the only way to produce food which is good for the land, for those who grow it and for those who consume it. A group of farming entrepreneurs, private agro-industrial professionals and cooperatives: La Cesenate Conserve Alimentari S.p.A., Brio S.p.A., Pastificio Felicetti S.p.A., Cooperativa Norandino, Consorzio Libera Terra Mediterraneo, Chocolat Stella, Pompadour, Molini De Vita S.r.l, Apo Conerpo Soc. Coop and Mediterre.bio S.r.l. Ingredients are grown by our farmers and processed by our Shareholders: seven plants in Italy, one in Switzerland, for the production and the processing of cocoa, and one in Peru dedicated to raw cane sugar. A group firmly rooted in the land, a concrete and distinctive example of an integrated, organised and sustainable network, whose work is symbolised by the Alce Nero brand. This is why Alce Nero doesn't manage supply chains, it is the supply chain itself.

EXPORT MARKETS

Alce Nero is a company of 96 people, with a turnover of 88 million Euro. Export represents 17% of this turnover, approximately 14,8 million euro. Today the company exports to more than 50 countries: Europe (Poland, Germany, France, Swiss, UK, Ireland, Spain, Portugal, Belgium, Greece, Sweden, Denmark, Hungary, Lithuania, Romania, Serbia, Bulgaria, Slovakia, Croatia, Middle East and other countries worldwide, such as Russia, Brazil, USA and Canada.

In the Far East, Alce Nero and the Denis Group formed a joint venture in 2006 in order to consolidate and extend the development of the brand in key countries in this vast region. Alce Nero Asia distributes our products in Japan, China-HK, Taiwan, Korea, Singapore, Malaysia, Thailand, Indonesia, Brunei and others. Worldwide, Alce Nero is working with importers and distributors with the aim of building long-term relationships for smooth business development and mutual benefits.

"Organic food has become very popular and is no longer a niche market; never before organic products and producers have crowded the market like in these days. Everyone produces organic food and everyone talks about it: big companies and important brands of the conventional market. Even the multinational corporations started with their certified organic product lines and are distributing them quickly in the supermarkets, thanks to their dimensions and commercial importance. In this changing world, our strength and distinctiveness is to offer always only and exclusively italian organic food. As we are a group of farmers and processors who produce and sell their products directly, in a market which is suddenly flattered by the giants of the food industry, we will work hard to ensure that Alce Nero remains a credible and excellence alternative, managed by farmers and definitely Italian, for all those who will continue to trust us in the years to come."

The land has to be protected and preserved, looked after as if we were its big brothers. There is a symbiosis between the farmers and the earth. Farming land is a heritage to be safeguarded and handed over to the future generations.

PASTA

DURUM WHEAT PASTA

Alce Nero pasta is made exclusively with organic Italian wheat grown in the south of Italy. The traditional drawing process gives our pasta a rough surface for a fuller taste, making it perfect for absorbing sauces. Alce Nero durum wheat pasta is available in various shapes: **spaghetti**, **penne**, **fusilli**, **conchiglie**, **farfalle**, **tagliatelle** and **lasagne**.

WHOLE DURUM WHEAT PASTA

Alce Nero whole durum wheat pasta with high fibre content is available in following shapes: **spaghetti**, **penne**, and **fusilli**. Consume it with vegetable white sauces such as classic pesto with basil, courgettes or artichokes pesto sauces.

SEMI-WHOLE DURUM WHEAT PASTA

The pasta appears slightly bronze-colored, with a rough surface due to the traditional drawing process; after cooking, the pasta is light yellow. Available in the following shapes: **spaghettoni**, slightly thicker as traditional spaghetti, **penne rigate**, excellent for baked pasta, **fusilloni** with a large corkscrew shape that absorbs the sauces better and **gramigna**, a short curled shape typical of the Emilia Romagna region, ideal for sauces with meat.

PASTIFICIO FELICETTI S.P.A.

Over 100 years of experience builded up and handed down over three generations and a unique location by the Dolomites mountains in the North of Italy make Alce Nero's shareholder Pastificio Felicetti an exceptional pasta maker. Thanks to Felicetti's skills in processing organic grains, a dough made using pure spring water and the bronze drawing, Alce Nero's pasta has the perfect organoleptic features, the right texture after cooking and the desirable flavour to the palate. Semolinas are obtained from fine durum wheat and spelt varieties, meticulously selected and grown in Italy. The company is also committed to respecting the environment, with an extensive programme for organic production.

SPECIAL DURUM WHEAT PASTA

Alce Nero special durum wheat pasta is made exclusively with organic wheat and cereals grown in Italy. The traditional drawing process gives our pasta a rough surface for a fuller taste, making it perfect for absorbing sauces. Vegetables and other grains are added to the durum wheat giving it a delicate color and flavor, making the pasta ideal for tasty recipes.

DURUM WHEAT PASTA OF GRAGNANO P.G.I.

Alce Nero Gragnano pasta is made with organic Italian durum wheat. It is produced in Gragnano near Naples with an artisanal process: traditional drawing process followed by a very slow drying, which lasts up to 50 hours and takes place in static cells at an average temperature which never exceeds 50 °C. The P.G.I. (Protected Geographic Indication) Alce Nero Gragnano pasta is available in three big shapes: paccheri, spaghettoni and rigatoni.

WHOLE DURUM WHEAT PASTA WITH LEGUMES

Alce Nero whole wheat pasta with legumes, available with red lentils or chickpeas, is a good alternative to traditional pasta thanks to its low carbohydrate content and the high percentage of proteins. For this type of pasta we use whole durum wheat, produced by milling the whole grain, and legume flour, mixed with the spring water coming from the Dolomites. Whole durum wheat pasta with chickpeas is

available in **fusilli** and **spaghetti** shapes whereas whole durum wheat pasta with red lentils in **penne rigate** and **linguine** shapes.

GLUTEN FREE PASTA

Alce Nero gluten-free pasta is produced exclusively with organic corn and rice cultivated in Italy. The recipe has been specially devised to strike the perfect balance of flavors between white corn, yellow corn and rice. It holds up to the cooking process excellently, with the original shape and fragrant taste staying intact. Available in three shapes: **spaghetti**, **penne** and **fusilli**.

NEW PAPER PACKAGING

Alce Nero has studied new packaging for Organic Cappelli durum wheat, Emmer and whole Emmer. The packs are realized in paper, without plastic windows, with residues close to zero during recycling. Not only that, the packages have water-based paint and glue, without any chemical component.

CAPPELLI DURUM WHEAT PASTA

This pasta is produced using a historic variety of durum wheat created by Nazareno Strampelli in the beginning of the XXth century on the fields made available by the Marquis Cappelli.

During the tests, Strampelli developped amongst other selected seeds, the Cappelli wheat.

The line, including **spaghettoni**, **penne**, **rigatoni** and **fusilli** is endowed with **linguini** and **mezze maniche** shapes, all organic.

100% EMMER WHEAT PASTA

Our 100% emmer pasta is obtained exclusively from organic emmer grown in Italy, Triticum Dicoccum, so called because it contains 2 caryopsis per spighetta. The Traditional drawing process gives this pasta a rough surface, particularly suitable for tying seasonings. It is available in different formats: spaghetti, penne rigate, fusilli, tubetti, tagliatelle and gramigna.

WHOLE EMMER WHEAT PASTA

Alce Nero whole emmer wheat pasta with natural source of fibre content is available in following shapes: **spaghetti**, **penne** and **fusilli**. Consume it with vegetable white sauces such as classic pesto with basil, courgettes or artichokes pesto sauces.

100% KHORASAN WHEAT PASTA

The Khorasan wheat for our pasta is organic and is grown in Italy. Khorasan wheat has always been cultivated in the Mediterranean area. Cultivation areas where today's characteristics are best expressed, in Italy, are in particular the regions of Sicily and Apulia. The traditional drawing process gives our pasta a rough surface for a fuller taste, making it perfect for absorbing sauces.

The pasta with 100% Khorasan wheat is available with white and whole wheat, in the shapes **penne rigate** and **spaghetti**.

TOMATO AND PASTA SAUCES

Our tomato and organic vegetables maintain the simplicity and authenticity of the flavors of the past. The tomatoes are 100% Italian and organic, cultivated on the most suited fields in the Emilia Romagna region. To preserve the flavors and aromas of our pastes and pulp, the tomato processing process begins a few hours after harvesting.

The range includes: **tomato purée**, **chopped pulp**, **chopped pulp with basil**, all three in a 500g bottle and **peeled tomatoes** in a 400g jar, **tinned tomatoes** in 350g size, **velvety brick** 200g x 3, **velvety bottle** 200g x 2, **double tomato concentrate** and the **yellow tomato purée**.

Tomato sauce with basil, tomato sauce with vegetables, "arrabbiata" and "ortolana" tomato sauce in 350g jars; tomato sauce with dried tomatoes, tomato sauce with mushrooms, classic tomato sauce, tomato sauce with vegetables, tomato sauce with basil, "arrabbiata" tomato sauce, tomato sauce with peas, with ricotta cheese, as well as the "bolognese" tomato sauce with beef and tomato sauce with seitan in 200g jars.

LA CESENATE S.P.A.

Founded in 1949, La Cesenate S.p.A. is the processor behind many categories of Alce Nero products, the most important of all being the Tomato Products (tomato puree, pulp and sauces). Since the beginning of 2000, La Cesenate has reinforced its personality as an important company of the Romagna region, processing raw materials from its own land and working in close partnership with farmers and cooperatives in Emilia Romagna. The constant investment policy of the company has allowed it to process larger quantities of organic raw material in a short time, using the best possible techniques in order to maintain all the nutritional characteristics of the ingredients, making the Alce Nero products excellent. For almost 20 years La Cesenate has been one of the most important partners of Alce Nero.

A very strong relationship, which led Arturo Santini to assume the position of President of Alce Nero in 2018 and the majority of the shares of the company in 2019.

EXTRA VIRGIN OLIVE OIL

Our range of extra virgin olive oils offers a selection of **three extra virgin olive oils**. They are produced with olives grown in Apulia region in the south of Italy by approximately 160 member olive growers.

The classic extra virgin olive oil is made exclusively from organic cultivars including Coratine, Ogliarola and Carolea, for a green oil with yellow reflexes and a well balanced flavour. It is perfect as a dressing for salads or as a base for sauces preparations. The extra virgin olive oil P.D.O. - Terra di Bari Bitonto is obtained from a blend of cultivars Cima di Bitonto and Coratina, cultivated by our cooperatives located in the province of Bari, as specified by P.D.O. requirements. This extra virgin olive oil has a medium fruity aroma with sensations of fresh herbs and light hints of bitter and spicy. It is ideal for grain soups, meat dishes, grilled vegetables and bruschetta. Alce Nero Monocultivar Biancolilla extra virgin olive oil is made exclusively from Biancolilla cultivar by Cooperativa AIP OLIVO S.C.A.p.A. in Palermo. It has a straw yellow color with golden reflexes, a delicate flavour and aroma ranging from artichoke to tomato and fresh grass. This oil is perfect for serving with raw and cooked vegetables, soups and grilled fish.

The olives are harvested by hand from October to January with the help of mechanical equipment, to minimise damage to the fruit. Once harvested, olives are sent to the press, where the production process begins, transforming the olives into oil by means of cold pressing. We have always worked to guarantee and convey the characteristics, origin, cultivation and processing methods of our organic products.

FINOLIVA GLOBAL SERVICE S.P.A.

Behind Alce Nero Extra Virgin Olive Oil, there is the patient work of a group of growers and the company Finoliva, that have decided a long time ago to convert to organic growing techniques in the area of Ruvo di Puglia and Bitonto. Olive trees are quite sensitive, to insects in particular; it is a big commitment for organic growers to control the parasites using only natural products.

We are proud of our organic extra virgin olive oil, and of the fact that our production grows regularly and under strict control every year, patiently but surely.

DRESSINGS AND CONDIMENTS

Alce Nero offers a selection of typical organic Mediterranean dressings: apple vinegar, made from the juice of apples from the Trentino region; balsamic vinegar of Modena P.G.I. "3 seals", made with the must of Italian grapes and balsamic vinegar of Modena P.G.I. "5 seals" (according to the New Seal Quality System evaluated by the Consortium for the Protection of Balsamic Vinegar of Modena); a creamy and sweet Balsamic Glaze, lemon juice made with fresh Sicilian Lemons and lime juice. The vegetable stock cubes are palm oil and gluten free. The line also offers the vegetable granulated broth without vegetable fats and gluten.

FLOURS

Alce Nero flours are made by processing organic Italian grains. The classic types "0", "00", "2" and whole wheat flour are packed in 1 kg paper bags are produced from soft wheat grown in Italy; rice flour, whole emmer flour, Khorasan flour and Cappelli Durum wheat are in sizes of 500g, packaged in a protective atmosphere.

Apart from the classic milled flours, Alce Nero offers a range of **stone ground flours**.

Stone grinding is the oldest milling system in existence, where the grain of wheat is crushed and ground through its passage between two millstones rotating stone.

The slow milling speed allows the characteristics to be preserved intact nutritional of the wheat germ. Stone grinding, moreover, allows to obtain a flour with an irregular grain size that guarantees a taste and a scent more intense to the flour. To the range is added the **new stone ground chickpeas flour**, with nutty and sweet flavor and rich in protein and fibre.

FAIRTRADE

Alce Nero Fairtrade line includes **cocoa**, **cane sugar**, **coffee**, **tea**, **chocolate**, **rice** and lots of other products, all organic, produced pursuing the best quality and respect for the land and the people working it.

All these products tell the story of flavors and lands, of solicitous hands and gentle workmanship able to bring the flavor of authentic and diversified nutrition to your table.

The farmers selected by **Alce Nero Fairtrade** are part of the union of nearly 6000 producers,171 associations and cooperative members of **Norandino** in Peru.

Every day they are committed to cultivating and processing agricultural products in accordance with the principles of quality and purity of production. They democratically promote social and environmental sustainability in their communities in the north of Peru - in the regions of Piura, Tumbes, Amazonas, Cajamarca, Lambayeque and San Martín.

BABY FOOD

*Alce Nero baby food complies with the D.P.R. No. 128 of 7 April 1999 except extra virgin olive oil and chamomile.

The Alce Nero Baby Line is the **range dedicated to children from 0 to 3 years**. To grow well and according to nature, we have chosen to produce only in Italy, in the certified* plants of our members and partners, using **Italian raw materials** and **Fairtrade certified organic bananas**. The recipes of the Baby line are **simple** and clean: from organic fruit, vegetables and cereals grown by farmers who share our values. We guarantee the transparency of all products: for each one we undertake to indicate their characteristics, origin and processing.
